MEC FOREWORD

Sixteen years into our democratic local government, we can say with confidence that we have managed to transform the face of KZN municipalities for ever. From polarised and racially constituted municipalities of the pre-1994 era, we now have inclusive and vibrant municipalities that foster social cohesion as an important backdrop to service delivery.

Veteran poet and author Don Mattera in one of his poems challenges us to use the glory of freedom to give birth to what he calls “**perfect days**” for our people. As harbingers of the “**perfect days**” for our people, we have carried out our tasks in the past sixteen years as the sphere of local governance in a manner than ensures that year on year we lessen the burden imposed on communities by poverty, inequality and underdevelopment.

We have worked hard to ensure that the most vulnerable among us see their rights to development being realised with each passing day, through progressive advances in access to land, shelter, water, sanitation, education, training, health care and economic opportunities.

This Annual Performance Plan is our blueprint on how we take these municipalities forward and usher in the more “**perfect days**” that our people yearn for as we implement the National Development Plan (NDP). In this vein, we pledge to monitor and support local government performance to ensure that municipalities become economically viable and remain sustainable to carry out their constitutional mandate.

The bottom line is that we need functional municipalities and traditional leadership institutions. To this end, we undertake capacity building, training, skills development, technical support and targeted interventions to help each municipality perform better in discharging its responsibilities. In addition to this, we want municipalities to become engines of economic development where government continually strives to create a conducive environment for private businesses to create jobs and prosper. We are in this Annual Performance Plan redefining the new focus for our local governance institutions to be more on growing local economies.

One of the challenges that continue to hamper local government is debt owed to municipalities. In response to this, we are assisting municipalities with revenue collection and debt enhancement strategies. Unless these debts are collected, municipalities will struggle to provide much needed services to communities.

KZN is breaking records with the number of clean audits its municipalities and municipal entities receive from the Auditor-General in recognition of their financial management practices. Cogta’s support programmes in this regard are among our most critical interventions to improve the financial management and performance of municipalities.

Local government is central to the provision of service delivery to the citizens. The fact that service delivery protests are directed primarily at municipalities is an indication of the importance of municipalities. In order to improve communication and public awareness, we are placing a premium on communication and public

participation through our rapid response teams, public meetings, CDWs and other channels to ensure that community issues are resolved before communities turn violent.

The promotion of participatory democracy also includes the strengthening of ward committees through capacity building. We view this in a very serious light and we are working to ensure that adequate training takes place so that every ward committee is able to deal with and resolve issues at ward level.

A continuous synergy between budgets and IDPs is important for municipalities to maximise outcomes and outputs for the benefit of their residents. Our respective support programmes seek to coordinate, facilitate and promote integrated development and long-term planning in municipalities to define service delivery in integrated and sustainable terms.

Our wealth as a nation stems from our diversity and heritage. One important part of our heritage are our traditional institutions which remind us of where we come from. In order to safeguard this heritage, we are supporting and strengthening our amakhosi, izinduna and the Traditional Councils, all of which we want to be run more efficiently. Our interventions also include capacity building programmes in traditional leadership and the advancement of women within our traditional communities.

The two immediate tasks we face is the ongoing drought which has devastated communities in our province since 2014 and the 2016 local government elections which also coincide with the culmination of redemarcation of our municipalities. We are executing both tasks with vigour. In addition to a comprehensive drought awareness campaign, we are assisting drought-stricken municipalities with practical solutions such as the construction and rehabilitation of boreholes and water tankering. We are also ensuring that the upcoming elections are free and fair and that the demarcation process results in a network of economically viable municipalities.

Our main task in 2016/2017 is to strike a balance between a focus on management, finances and capacity building and the pressures of the difficult economic climate and the ever growing need for jobs and municipal services in KZN. Only by engaging all stakeholders and utilising the resources we have optimally will we be able to improve the quality of life of our people and ensure that KZN becomes a better place for everyone.

Hon. Nomusa Dube-Ncube, MPL
MEC for Cooperative Governance and Traditional Affairs
KwaZulu-Natal Provincial Government

cogta

Department:
Cooperative Governance and Traditional Affairs
PROVINCE OF KWAZULU-NATAL

OFFICIAL SIGN OFF

It is hereby certified that this Annual Performance Plan:

- Was developed by the management of the Department of Cooperative Governance and Traditional Affairs under the guidance of Ms. Nomusa Dube-Ncube;
- Was prepared in line with the current Strategic Plan of the Department of Cooperative Governance and Traditional Affairs;
- Accurately reflects the performance targets which the Department of Cooperative Governance and Traditional Affairs will endeavour to achieve given the resources made available in the budget for the 2016/2017 financial year.

Mr. B. Ndlovu
Chief Financial Officer

Ms. D. N. Qhobosheane
Accounting Officer

Approved by:

Ms. N. Dube-Ncube- MPL
MEC for Cooperative Governance and Traditional Affairs
Executive Authority

PART A: STRATEGIC OVERVIEW

Vision

KZN COGTA envisages “People Centred sustainable Cooperative governance”.

Mission

“KZN COGTA will coordinate and foster cooperation amongst governance institutions and build capacity to accelerate delivery of high quality services to communities”.

VALUES

VALUE	DEFINITION
Transparency, integrity, professionalism and objectivity	Allowing service beneficiaries and staff to ask questions and responding to their enquiries honestly, frankly and timeously.
A high standard of fiscal discipline and accountability	All expenditure be accounted for and be aligned to departmental objectives.
Value for money	Adding value to the lives of service beneficiaries.
Open communication and consultation	Listening to, taking account of the views and paying heed to the needs of service beneficiaries, when deciding what services should be provided.
Respect for staff and investment in them as a valued asset	Treating staff with consideration and respect and assigning development programmes in line with the Department's objectives and providing a wellness programme.
Recognition of performance excellence	Rewarding and recognising staff for good performance.
Service excellence through teamwork, sound planning and committed implementation	Support programmes developed by the Department are designed and monitored to impact on service beneficiaries.

LEGISLATIVE AND OTHER MANDATES

Constitutional Mandate

The mandates of the Department of Cooperative Governance and Traditional Affairs are embodied in the following Sections of the Constitution, 1996:

- Section 139 provides for provincial intervention in local government. This intervention in municipalities, includes the issuing of directives, and managing interventions by the Provincial Executive Council in accordance with the provisions of section 139(1) (a), (b) and (c);
- Section 154 determines that provincial governments must provide support and strengthen the capacity of municipalities to manage their own affairs, to exercise their powers and to perform their functions in accordance with the provisions of section 154(1) and (2);
- Section 155(5) and (6) determines the types of municipalities in KwaZulu-Natal, and establishes municipalities in KwaZulu-Natal, thereafter the Municipalities, by legislative and other measures, must be monitored and supported, in addition to which the Department must promote the development of local government capacity, to enable municipalities to perform their functions and manage their own affairs; and
- Section 155 (7) stipulates that provincial governments have legislative and executive authority to see to the effective performance by municipalities of their functions in respect of matters listed in Schedules 4 and 5, by regulating the exercise by municipalities of their executive authority referred to in section 156(1).

Legislative Mandates

The following legislation is administered by the Department:

- Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)
- Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998)
- Local Government: Municipal Financial Management Act, 2003 (Act No. 53 of 2003)
- Local Government: Municipal Property Rates Act, 2004 (Act No. 6 of 2004)
- Local Government Demarcation Act, 1998 (Act No. 6 of 2004)
- Local Government Municipal Electoral Act, 2000 (Act No. 27 of 2000)
- Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003)
- Disaster Management Act, 2002 (Act No. 57 of 2002)
- Spatial Planning and Land Use Management Act, 2013: (Act No. 16 of 2013)
- Infrastructure Development Act, 2014 (Act No. 23 of 2014)
- Municipal Fiscal Powers and Functions Act, 2007 (Act No. 12 of 2007)
- Remuneration of Public Office Bearers Act, 1998 (Act No. 20 of 1998)
- KwaZulu-Natal Planning and Development Act, 2008 (Act No. 6 of 2008)
- KwaZulu-Natal Pounds Act, 2006 (Act No. 3 of 2006)
- KwaZulu-Natal Cemeteries and Crematoria Act, 1996 (Act No. 32 of 2000)
- KwaZulu-Natal Determination of Types of Municipalities Act, 2000 (Act No. 7 of 2000)
- KwaZulu-Natal Traditional Leadership and Governance Act, 2005 (Act No. 5 of 2005)
- Fire Brigade Services Act, 1987 (Act No. 99 of 1987)

POLICY MANDATES

Policy mandates have in the past created the parameters within which laws have been developed. For example, the White Paper on Developmental Local Government created the policy environment for the development of the Municipal Structures, Systems, Financial Management and Intergovernmental Relations Acts.

Policy mandates are also associated with policy pronouncements such as: the National Development Plan (NDP), Medium Term Strategic Framework (MTSF) and the Provincial Growth and Development Plan (PGDP) which then enhance the mandate for Cooperative Governance

Freedom Charter, 1961

The Freedom Charter is a document that the Congress of the People adopted in 1961 as to what would be a picture of a free South Africa. The Freedom Charter declares that "South Africa belongs to all who live in it, black and white, and no government can justly claim authority unless it is based on the will of all the people" (Freedom Charter, 1961: 1). The will of all people is at the centre, and forms a base for this document. The core principles of the Freedom Charter find manifestation in the SA Constitution. The key opening demand for the Freedom Charter is "The people shall govern". This means that all men and women off all races, sex and colour have a right to vote, and can stand as a candidate for all bodies which make law and are entitled to be part of the administration of the country. Indeed, as COGTA we have witnessed that our government is elected regularly through transparent, free and fair elections as a prerequisite of our democracy demanded by the Freedom Charter. Every South African has the right to elect a government of his or her own choice. Regardless of race, the charter also calls for full equal rights for all citizens including human rights; common ownership of land and industry; equality before law; right to housing, security and comfort; jobs and security; fully-funded education for children and greater access to higher education.

The Freedom Charter remains the platform and vision for South African policies, strategic thinking and aspirations that South Africa seeks to achieve. On the Statement of the National Executive Committee (NEC) of the African National Congress, President Jacob Zuma defines National Development Plan (NDP) as an "overarching plan and a vision to realise the ideals of the Freedom Charter to put in place a South Africa that belongs to all who live in it" (Statement of the NEC of the ANC, 2015: 3). This means that the NDP is our long term vision to attain the objectives of the Freedom Charter.

26 June 2015 marks the 60th anniversary of the adoption of the Freedom Charter. While there has been huge progress, there is still a lot to be done for our people in giving effect to the ideals envisaged by the Freedom Charter. Our role as COGTA is to co-ordinate, lead Integrated Provincial Service Delivery; support ward based planning; and strengthen Local Government to ensure that it has the necessary capacity to decently house people whilst providing other necessary services such as transport, roads, lighting, playing fields, creches and social centres called for by the Freedom Charter. The Department will also work towards improving consultation, communication and feedback in municipalities and traditional councils.

National Development Plan and Medium Term Strategic Framework

The National Development Plan is a plan for South Africa and provides a broad strategic framework to guide key choices and actions in order to eliminate poverty, reduce inequality and unemployment by 2030. The NDP approach draws extensively on the notion of capabilities, active citizenry and inclusive economy, enhancing the capacity of the state, and promoting leadership and partnerships throughout society. As with the Freedom Charter, NDP calls on our people to be part of an active citizenry and to take greater collective responsibility for their own development.

COGTA contributes to the delivery of chapters 4, 5, 6, 8, 13, 14 and 15 of the NDP. Table 8.2 illustrates the alignment of the COGTA strategic goals and objectives with the NDP, MTSF outcomes and PGDP.

Chapter 4 of the NDP: Economic Infrastructure stipulates that in order for the country to support the long term economic objectives and development goals, South Africa needs to extensively invest in basic services such as electricity, water, sanitation, telecommunications and public transport. The challenge is to maintain and expand the provision of basic services in order to address the demands of the growing economy. Our role as COGTA includes providing support to municipalities in the provision of new infrastructure, as well as operational, maintenance and upgrade of existing infrastructure. In addition, COGTA will strengthen the capacity of municipalities to efficiently deliver infrastructure services to the required standard.

According to **Chapter 5 of the NDP: Environmental Sustainability and Resilience**, developmental challenges must be addressed in a manner that ensures environmental sustainability and builds resilience to the effects of climate change, particularly in poorer communities (NDP, 2011: 197). To this effect, adaptation strategies in conjunction with national development strategies should be implemented, including disaster preparedness, investment in more sustainable technologies and programmes to conserve and rehabilitate ecosystems and biodiversity assets. Consequently, the strategic objective of KZN COGTA is to increase adaptation to Climate Change impacts and improve Disaster Management by identifying and putting into effect appropriate policies and measures.

Chapter 6 of the NDP: An Integrated and Inclusive Rural Economy states that by 2030 South African rural communities must have better opportunities to fully participate in the economic, social and political life of the country. Our people will only achieve this through access to high-quality basic services which will enable them to seek economic opportunities. COGTA acknowledges the challenges at municipalities and it is then our priority to implement the Back to Basics programme and ensure that all municipalities move from a dysfunctional to functional state.

One of the key objectives of the NDP is to ensure a transformed Human Settlement (Chapter 8). To have a strong and efficient spatial planning system well integrated across the spheres of government. Among other things this will require:

- Reforms to the current planning system for improved co-ordination;
- Develop a strategy for densification of cities and resource allocation to promote better located housing and settlements;
- Introduce spatial development framework and norms, including improving the balance between location of jobs and people; and
- Provide incentives for citizen activity for local planning and development of spatial compacts.

Chapter 13 of the NDP: Building a Capable and Developmental State places emphasis on building a capable state to eliminate poverty, reduce inequality and unemployment by 2030. Our determination is to ensure that Local Government has committed people with appropriate skills and is capable of being transformative and developmental state to achieve NDP goals. Building a capable state necessitates the following:

- Stabilisation of the political administrative interface;
- Making the public service and local government careers of choice;
- Development of technical and specialist professional skills;
- Improving relationships between the spheres of government, and
- Reforming the state owned enterprises.

Chapter 14 of the NDP: Fighting Corruption states that corruption frustrates the country's ability of operating fairly and efficiently, and hinders the country's ability to deliver on its development mandate. A no "corruption country" will be realised through:

- Enforcement of law, procedures and policies will ensure that anti-corruption agencies have requisite resources and independence;
- Prevention focuses on the effectiveness of the available systems, institutional arrangements and accountability in the organisation; and
- Education in society is about the society understanding the social dimensions of corruption and reporting it.
- Operation Clean Audit, good governance, sound financial management and accountability remain the priority for COGTA.

The National Development Plan is the collective future of people of South Africa regardless of gender and race and it is our responsibility to make it work. **Chapter 15 of the NDP: Transforming Society and Uniting the Country** emphasises that people must unite around a vision of a better South Africa. This indicates that citizens have an important role to play in bringing about transformation and holding government accountable for the services they deliver. Participation in local governance is a key principle of post-apartheid legislation. White Paper on Local Government (1998) encourages municipalities to find ways of structuring participation to enhance service delivery. KZN COGTA will work towards strengthening the functionality of oversight structures; Ward Based Planning; Ward Committees; improve timeous consultation, communication and feedback in municipalities and traditional councils. It will also enhance the participation of Traditional Leaders in municipalities and improve IGR Structures.

The MTSF is the short term strategy that gives effect to the NDP. The NDP and MTSF identify the following priorities that are particularly important to improve Local Government performance and ensure quality service delivery:

- a) Members of society have sustainable and reliable access to basic services. (**Outcome 9: Sub Outcome 1**).

- b) Intergovernmental and democratic governance arrangements for a functional system of cooperative governance strengthened (**Outcome 9: Sub Outcome 2**).
- c) Sound financial and administrative management. (**Outcome 9: Sub Outcome 3**).
- d) Promotion of social and economic development. (**Outcome 9: Sub Outcome 4**)
- e) Local public employment programmes expanded through the Community Work Programme. (**Outcome 9: Sub Outcome 5**).

Provincial Growth and Development Plan (PGDP)

The KwaZulu-Natal Provincial Growth and Development Plan (PGDP) is a comprehensive document that addresses the enormous triple challenge of poverty, inequality and unemployment. This is a long-term plan which sets ambitious but achievable TARGETS that will be realised by the year 2030. The PGDP espouses the Provincial vision that: KwaZulu-Natal will be a prosperous Province with a healthy, secure and skilled population, acting as a gateway to Africa and the World.

The PGDP is aligned to the National Development Plan. The Department's operations are guided by the National Development Plan, 2030 which is expressed in the Provincial Growth and Development Plan

STRATEGIC GOALS	OBJECTIVES
Job Creation	Enhance Industrial Development through Trade, Investment & Exports Expansion of Government-led Job Creation Programmes Promoting SMME, Entrepreneurial and Youth Development Enhance the Knowledge Economy
Human Resource Development	Improve Early Childhood Development, Primary and Secondary Education Support Skills alignment to Economic Growth Promote enhanced Youth Skills Development & Life-Long Learning
Human And Community Development	Poverty Alleviation & Social Welfare Enhancing Health of Communities and Citizens Safeguard Sustainable Livelihoods & Food Security Sustainable Human Settlements Enhancing Safety & Security Advance Social Cohesion Promote Youth, Gender and Disability Advocacy & the Advancement of Women
Strategic Infrastructure	Development of Ports and Harbours Development of Road & Rail Networks Development of ICT Infrastructure Improve Water Resource Management Develop Energy Production Capacity
Environmental Sustainability	Increase Productive Use of Land Advance Alternative Energy Generation Manage pressures on Biodiversity Disaster Management
Governance and Policy	Strengthen Policy, Strategy Co-ordination and IGR Building Government Capacity Eradicating Fraud & Corruption Promote Participative, Facilitative & Accountable Governance
Spatial Equity	Actively Promoting Spatial Concentration Facilitate Integrated Land Management & Spatial Planning

The Department is committed to the alignment of its 15/16 APP with the PGDP and where it is felt that the interventions are operational, these will be incorporated in the Business Plans of the respective Business Units.

KZN Poverty Eradication Master Plan

KZN Poverty Eradication Master Plan is a programme adopted by KZN to ensure that government in partnership with all non-governmental partners work together to eradicate poverty through Operation Sukuma (bottom up approach).

In the State of the Province Address, 26 June 2014 KZN Premier, honourable Mr Senzo Mchunu declared "poverty as public enemy number one" (State of the Nation Address, 2014:1). In this regard, KZN is

committed in throwing full weight behind poverty eradication. The government seek to intensify its support to vulnerable groups, in particular mother and children; the disabled; communities on commercial farms and informal settlements. It is fully aligned to national and provincial imperative namely, NDP, PGDP and ruling party policy pronouncements (RDP, Ready to Govern, Mangaung Conference Resolution and Manifestos (2014).

Five strategic Game Changers and Core Delivery Plans with qualitative and quantitative imperatives and targeted milestone between 2014 to 2030 (and beyond) have been formulated, aligned to the PDGP interventions and targets; and assigned to PGDP workgroups in which COGTA is represented.

The 5 Game Changers are as follows:

- Agriculture: Fast track Festa Tlala; linking mechanisation entrepreneurship; Commercialisation of livestock; Revitalisation of land reform farms; Promote Agric cooperatives; and Agribusiness Youth Empowerment
- Enterprise Development : Waste management; Build KZN Construction; Agri-food value chain; Comprehensive Rural renewable energy; Business support programme; and Sand and stone mining
- Employment Creation: Rural infrastructure development; Revamped EPWP; Rural Tourism; and Communal Milling Stations
- Skills development: Early childhood development; Primary and Sec school education Improvement; Skills alignment -economic growth; Artisan development; Youth Skills development; and Life Long Learning
- Social Protection: Improving Child Health Outcomes; Improving access to quality education; Uplifting Living Standards; Food and Nutrition Security; Social security; and Community mobilisation and Development

Sustainable Development Goals (SDG)

The 2030 Agenda for Sustainable Development is a comprehensive document which United Nations adopted in its aim to shift the world onto a path of inclusive and sustainable development, which includes 17 Sustainable Development Goals (SDGs). The objective of SDG is to provide a set of universally relevant and applicable goals that balance the dimensions of sustainable development: economic, environmental and social.

SDG 1: End Poverty, aims to eradicate extreme poverty for all people everywhere by 2030 and ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services. The trial is South Africa cannot flourish if the mass of our people remain in poverty, without land, without tangible prospects for a better life, therefore, attacking poverty and deprivation must therefore be the first priority of a democratic government. The Department's (COGTA) strategic goal is to increase economic opportunities to foster economic wellbeing for all, through improving sectorial development and improving government job creation programs.

SDG 5: Gender Equality call for an end to all forms of discrimination against women and children and ensuring that women fully participate and have equal opportunities for leadership at all levels of decision-making in political, economic and public life (social). In the efforts to address the issues of women's exclusion, the Department provide municipalities with support to adopt and strengthen policies that empower women and promote gender equality. On an annual base the Department hosts a "Women in Dialogue Conference" which sets to empower women in leadership positions, Seniors Managers and Municipal Councillors.

SDG 6: Clean water and sanitation stipulates to achieve universal and equitable access to safe and affordable drinking water for all, while substantially increasing water-use efficiency to address water scarcity and reduce the number of suffering from water scarcity. With the country currently facing a serve water shortage problem (KwaZulu-Natal is critically affected), it is vital for COGTA to provide support and capacity to municipalities to strengthen the participation of local communities in improving water management.

SDG 7: Affordable and clean energy by 2030, ensure universal access and affordable, reliable and modern energy services and expand infrastructure and upgrade technology for supplying modern and sustainable energy services. The challenge is that Infrastructure is poorly located, inadequate and under-

maintained. In its efforts to combat the challenge of addressing the demands municipalities face to maintain and expand the delivery of basic services, COGTA, as a strategic objective, provides support to municipalities by expanding infrastructure (new), upgrade and maintain existing infrastructure to raise the promotion and improving co-ordination of service delivery.

SDG 8: Decent work and economic growth aims to achieve full and productive employment and decent work for all women and men, including youth and persons with disabilities and equal pay for work of equal value. Promotion of development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation are important for job creation. In the efforts to eliminate poverty and reduce inequality and achieve economic wellbeing there needs to be an enabling environment. Department create employment through Local Economic Development initiatives which includes: Community Work Programme (CWP) and Expanded Public Work Programme (EPWP).

SDG 9: Infrastructure, industrialization and innovation stipulate develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being with focus on affordable and equitable access for all and significantly increase to access information and communications technology. With KwaZulu-Natal positioning itself as a gateway to Africa and the world it is of imperative value that the province has reliable and sustainable infrastructure that will be facilitate economic development and allow for the establishment of transborder infrastructure and communications. In order to sustain economic activity in municipalities, the Department will support infrastructure management and the provision of new infrastructure.

SDG 10: Reduce Inequality within and amongst countries. Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard and ensure enhanced representation and voice for all in decision-making. The Department's role in promoting equality is through facilitative and accountable governance that and supports municipalities to improve decision making through public participation. COGTA, through supporting municipalities to strengthen Inter-Governmental Relations, also reduces inequalities; IGR intends to meet the challenge of coherent and cooperative government in order to coordinate service delivery faster.

SDG 11: Sustainable cities and communities relates to adequate access to safe and affordable housing and basic services and upgrade of slums, by 2030 and enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries. As well as, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management. The Department, through its planning and development programme provide support to improve municipal capacity for effective development planning and policy making aimed at creating and maintaining spatial norms and standards to densifying cities, locating jobs where people live, upgrading informal settlements, which will make for sustainable cities and communities and boost economic development locally.

SDG 13: Climate action: in the efforts to combat climate change and its impacts, focus must be given to strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries, integrate climate change measures into national policies, strategies and planning and Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning. In order to address climate change, it is important for the Department support and builds capacity of disaster risk and management at municipal levels, to support municipalities to proactively deal with disasters and climate change related incidents.

SDG 16: Peace, justice and strong institutions aims to develop effective, accountable and transparent institutions at all levels, substantially reduce corruption and bribery, while ensuring responsive, inclusive, participatory and representative decision-making at all levels and promote and enforce non-discriminatory laws and policies for sustainable development. COGTA's function's to coordinate and support municipalities to have functional governance structures which promote good governance as expressed through factors like reliability, certainty, accountability decision-making through citizen participation. The Department will make provision of support to the improvement of capacity for knowledge, resource allocation, implementation and maintenance for municipal officials to promote strong institutions and strengthen accountability of governance institutions

SDG 17: Strengthened partnerships for goals relates to strengthening of the means of implementation and revitalizing the global partnership for sustainable development through enhancement of policy coherence for sustainable development and encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships. In its aim to place build capable governance, the Department will continue to support municipalities for functionality to be able to deliver for sustainable development.

African Union Agenda 2063

The African Union Agenda is a “global strategy to optimise the use of Africa’s resources for the benefits of all Africans” (African Union Agenda 2063, 2015:1) It is a robust plan based on Pan Africanism and Renaissance with the intentions of addressing past injustice, learning from the lessons of the past At the same time build a bright future for the continent. AU commits itself to the Pan African vision of “an integrated, prosperous and peaceful Africa, driven by its own citizens and representing a dynamic in the international arena” (African Union Agenda 2063, 2015:1).

Africa has a good identity, culture, heritage, strong values, global influence, and has a capacity to realise full potential in development, peace, prosperous societies if it works together. The AU Agenda then commits to the aspirations for an integrated and prosperous Africa:

- A prosperous Africa based on inclusive growth and sustainable development;
- An integrated continent politically united based on the ideals of Pan Africanism and the vision of Africa’s Renaissance;
- An Africa of good governance, democracy, respect for human rights, justice and the rule of law;
- A peaceful and secure Africa;
- An Africa with a strong cultural identity, common heritage, values and ethics;
- An Africa, whose development is people-driven, relying on the potential of African people, especially its women and youth, and caring for children;
- Africa as a strong, united, resilient and influential global player and partner

AU Agenda will only succeed if African resources to finance and accelerate transformation and integration are mobilised; leadership are transformed at all levels and in all fields; capable developmental states with the appropriate institutions, policies, human resources, systems and processes; change in attitudes and mind sets to strengthen Pan African values of self-reliance, solidarity, hard work and collective prosperity and building on African successes, experiences and best practices; Africa’s take charge of narrative and brand, to ensure that it reflects continental realities, aspirations and priorities and Africa’s position in the world; Agenda 2063 integrated into all national and regional development plans; national, regional and continental institutions are strengthened and transformed to effectively lead and drive the agenda for transformation and integration; and learn from the diverse, unique and shared experiences of various countries and regions as a basis of forging an African approach to transformation.

The COGTA Strategic Goals and Objectives have been clearly aligned with the AU Agenda, and SDG goals. Refer to Annexure D.

Back to Basics

The Back to Basics programme was launched with the theme of “Serving Our Communities Better”. The Presidential Summit was held on the 18 September 2014, in which the President, outlined governments plan of action for the next 5 years which is to ensure a focused and strengthened local government by getting the basics right and together with other spheres of government , providing basic services efficiently and effectively and in a caring manner.

The 5 pillars of the programme have been outlined as:

- Putting People First: Listening and communicate
- Adequate and community orientated service provision
- Good governance and transparent administration
- Sound financial management and accounting
- Robust institutions with skilled and capable staff

Changing strategic orientation will not be easy and it will require bold leadership and political will. At the same time a collective effort and unity of purpose and partnership with leaders in local government, provinces and national government is required. There is a need to improve the political management of municipalities and be responsive to the needs and aspirations of local communities

The Back to Basics transformational agenda recognises that there are widely divergent levels of performance between different categories of municipalities – in terms of services, public engagement, good governance, financial management and technical capacity. The aim is to encourage all municipalities to become positively functional centres of good governance. There is also a need to set the proper standards for municipal performance.

- **Priority 1:** For those municipalities in a dysfunctional state aim will be for them to perform at the very least the basic functions of local government. This will be done through enforcement of current policies and legislation, systematically managing performance and accountability, and ensuring that there are consequences for underperformance. Minimum performance requirements include ensuring the proper functioning of council structures and council processes, the provision of basic services, and the appointment of competent staff.
- **Priority 2:** For those municipalities who are functional but are not doing enough in critical areas of service, they will be supported to progress to a higher path. Here the focus will be on building strong municipal administrative systems and processes, and ensuring that administrative positions are filled with competent and committed people whose performance is closely monitored. The oversight system for local government will be improved through creating real-time monitoring systems. Measures will be taken to ensure that municipalities engage properly with their communities.
- **Priority 3:** Municipalities that are performing well will be incentivised by giving them greater flexibility and control over their resources and grants, and encouraging them to move beyond the basics and transform the local space economy and integrate and densify communities to improve sustainability.
- **Priority 4:** There will be a target set and vigorous response to corruption and fraud, and a zero tolerance approach to ensure that these practices are rooted out. Supply chain management practices in municipalities will be closely scrutinized.

In November 2015, the next phase of Back to Basics was presented which prioritizes and focuses the programme in the pre and post-election period. This led to the adoption of the following Back to Basics 10 Point Plan:

1. Positive community experience
2. Municipalities receiving disclaimers over five years
3. Revenue enhancement programme
4. Appointment of Senior Managers in municipalities
5. Service and Infrastructure
6. Implementation of forensic reports
7. Metropolitan Back to Basic programme
8. Strengthening roles of district municipalities
9. Spatial regional integration zones/spatial contracts
10. Strengthen capacity and role of provincial COGTA Departments

SITUATIONAL ANALYSIS

SITUATIONAL ANALYSIS

KwaZulu-Natal is the province with the second largest population in South Africa. According to Statistics South Africa, the population density of the Province of KwaZulu-Natal is 10,92 million people (Statistics South Africa, mid-year statistics July 2015). It is estimated that South Africa has a total number 15,602 million of households and KwaZulu-Natal has 2,663 million of those households. KZN currently comprises of 1 Metropol, 10 Districts, 50 Municipalities and 828 Wards. However, the number of municipalities and wards will change to 43 municipalities and 870 wards respectively after the 2016 Local Government elections. Statistics indicate that the most densely populated areas (including fast growing informal settlements) are mainly concentrated in eThekwin, UMgungundlovu and UThungulu; they are considered to be the fast growing economic hubs in the Province. Newcastle area is also showing signs of rapid development.

Performance Delivery environment

a) Administration

The Office of the MEC provide strategic leadership and management support to both the department as well as the Ministry in line with the Department's mandates. It ensures that the operations of the Departments and those of the Ministry are not only streamlined, but also in harmony to enable the Department to achieve its administrative mandates in accordance with the MEC's political mandates. Improved management and accountability of human resources in the Department is central to ensuring good governance. In this regard, the Department reviewed and implemented the Human Resource Plan, Employment Equity Plan and Workplace Skills Plan. A number of training courses were conducted and 403 staff members received different trainings. In terms of capacity development, 162 in-service bursaries and 166 out of service bursaries were awarded and 85 interns were appointed within the department. The Department Service Charter was approved in 2014/15 financial year and a Batho Pele Forum will continually be used as a channel to mainstream the implementation of Batho Pele within the Department. In order to improve the effective management of discipline, the Department has introduced measures to decentralise disciplinary processes. Regarding the filling of vacant posts as at 1 April 2015, there were 106 vacant posts. The number of posts filled including Occupation Specific Dispensation (OSD) was 73. The number of vacant posts as at 31 January 2016 is 89. The total number of OSD posts filled 12.".

The Department is fully committed to improving accountability and ensuring that systems and controls are in place, and adequately implemented. All audits planned for the 2014/2015 financial year were conducted to improve financial management mechanisms for the Department and Traditional Councils in order to achieve an unqualified audit opinion. These include audits on Transfer Payments and Asset Management. In terms of Risk Management, a Risk Register was compiled and Risk Management reported on quarterly. In addition, based on Auditor General Findings, the Auditor General Action Plan was compiled to ensure that concerns are addressed. An Anti-Fraud and Corruption Strategy was developed and approved during the financial year. Following on from this, Fraud Awareness campaigns were conducted in all Districts. An electronic reporting system and the Compliance System are maintained to monitor the performance information and the compliance of the Department with both the line function and transversal legislation.

In terms of Management Performance Assessment Tool (MPAT), the Departments' scorecard by Department of Planning, Monitoring and Evaluation (DPME) is as follows:

Key Performance Areas	2012	2013	2014
KPA 1: Strategic Management			
1.1.1 Strategic Planning	3	3	3
1.1.2 Annual Performance Plans	2	3	4
1.3.1 Monitoring and Evaluation	4	4	4
KPA 2: Governance and Accountability			
2. 1.1 Service Delivery Improvement Plan (SDIP)	1	1	2
2. 2.1 Management Structures	2	2	3
2. 3.2 Audit Committee	3	1	4
2. 4.1 Professional ethics	1	3	3
2. 4.2 Fraud prevention	2	1	1
2. 5.1 Internal audit	2	1	4
2. 6.1 Risk management	2	1	4
2. 8.1 Corporate governance ICT	4	1	1
2.9.1 PAJA (Administrative Justice)	-	-	1
2.10.1 PAIA (Promotion of Access to Information)	-	1	2
KPA 3: Human Resource Management			
3.1.1 HR Planning	2	2	3
3.1.2 Organisational Design	3	3	3
3.1.3 HR Practices & Administration	2	3	4
3.2.2 Recruitment	1	1	3
3.2.4 Management of Diversity	1	1	2
3.2.5 Employee Wellness	-	1	4
3.2.6 Delegations-PSA	1	2	2
3.3.1 PMDS 1!12	3	3	2
3.3.2 PMDS SMS	2	2	3
3.3.3 PMDS HOD	3	2	2
3.4.2 Disciplinary cases	3	3	2
KPA 4: Financial Management			
4.1.1 Demand Management	3	3	2
4.1.2 Acquisition Management	3	3	3
4.1.3 Logistics Management	3	2	3
4.1.4 Disposal Management	2	3	3
4.2.1 Cash flow	3	4	4
4.2.2 Payment of suppliers	2	2	2
4.2.3 Unauthorised	3	4	3
4.2.4 Payroll certification	2	3	4
4.2.5 Delegations-PFMA	3	3	4

Level	Description
Level 1	Department is non-compliant with legal/regulatory requirements
Level 2	Department is partially compliant with legal/regulatory requirements
Level 3	Department is fully compliant with legal/regulatory requirements
Level 4	Department is fully compliant with legal/regulatory requirements and is doing things smartly

Governance trends between 2012 and 2014 indicated by the MPAT scores suggest that there is an improvement made by the Department. However, it is noted that several areas in the report had not yet achieved the average score of 3. The above results indicate weaknesses in ICT governance, Fraud Prevention, SDIP, PAJA, PAIA, PMDS 1!12, PMDS HOD, Disciplinary cases, Diversity, Demand Management and Payment of Suppliers as key areas needing attention. KZN COGTA believes that good management practices are the key in ensuring quality service delivery; hence the Department will continue to improve its management practices, and share good practices. It will initiate interventions to strengthen those areas that were identified as weak during the assessment.

Although the Department obtained an unqualified audit opinion during 2014/2015 financial year; compliance with laws and regulations in respect of annual financial statements; procurement and contract management;

expenditure management; and transfer payments will continue to receive full attention. The Department is seeking a drastic improvement in Information Technology. An IT Strategy was developed using the Government-Wide Enterprise Architect Framework which will assist in ensuring the functional IT services in the Department. The service provider was appointed to implement this strategy.

b) Local Governance

Back to Basics Strategic Session was held with municipalities and sector partners to engage them on the business unit activity plans and to ensure their alignment with municipal support plans. A presentation on Back to Basics and a specific presentation per district outlining their support plans were presented by each team to all Councillors and Community Development Workers (CDWs). An Internal Stakeholder workshop was held with KZN COGTA staff to sensitize them on Back to Basics approach and the 10 Point Plan. Terms of Reference (TOR) were developed for Local Government Champions as per the alignment to the Operation Sukuma Sakhe (OSS) model that was adopted by the Cabinet. All municipalities adopted their Back to Basics support plans. A progress assessment was held with all 26 dysfunctional municipalities. Another workshop was held with all 61 Municipal Managers (MMs) to introduce them to the OSS model as well as their role within the Back to Basics programme, the roll out of the KZN COGTA Back to Basics Activity plans and the Campaign Plan. All municipalities were visited in May 2015 with the focus of assessing the progress made and possible re-categorise based on the assessment findings. About 26 Support Plans developed are in line with Back to Basics 10 Point Plan for dysfunctional municipalities. However, business units needs to fast-track implementation of support plans in 2016/17.

The Municipal Demarcation Board (MDB) has finalised the outer boundaries of municipalities and the number of municipalities in KZN have decreased from 61 to 54. The municipalities that were affected by major re-determinations which will take effect in 2016 are as follows:

Split Municipalities:

- Vulamehlo LM: Split between Umdoni and Ethekwini.
- Ntambanana LM: Split between Mthonjaneni, Umhlathuze and Mfolozi.

Merged Municipalities:

- Imbabazane LM and Umtshezi LM
- Indaka LM and Emnambithi
- Hlabisa LM and Big 5 False Bay
- Kwa Sani LM and Ingwe LM
- Ezinqoleni LM and Hibiscus Coast LM.

Technical and Political Change Management Committees were established for each of the merged and split municipalities. Following the re-determinations of outer boundaries, the MEC determined the number of councillors, after the National Minister had determined the formula. The MEC published the number of councillors in each municipality on the 31st of October 2015. The MEC increased the 2011 number of councillors by 110, from 1736 to a total of 1846 councillors and the number of wards increased from 828 to 870 after the 2016 Local Government elections as a results of re-demarcation.

The Department of Cooperative Governance and Traditional Affairs is entrusted with a mandate of monitoring and supporting the Local Government Election. All Business Units within the Department are working together in ensuring the success of the Local Government Election. As part of monitoring and supporting the Local Government Election, the Department has established the following structures:

- The Provincial Local Government Election Steering Committee (PLGESC) - The members include COGTA, South African Local Government Association (SALGA), Independent Electoral Commission (IEC) and the State Security Agency. The purpose of the Steering Committee is to monitor, support, guide and oversee the election process.
- The Provincial Infrastructure Task Team - The members are: The Provincial Infrastructure Task Team (led by the Department's Municipal Infrastructure Business Unit), representatives from Sector Departments whose public facilities will be used as voting stations or can support and/or build the capacity of voting stations and the IEC. The purpose of the Task Team will be to evaluate the status of water, sanitation and electricity services available on site at all voting stations and ensure that all voting stations are adequately equipped with these basic services, thereby ensuring that the Elections are run smoothly.

A Post- Election plan has been developed to address the following:-

- First Council meetings;
- COGTA's Election Helpline;
- Comprehensive database which will contain LG Election results onto a single comprehensive database;
- Exit strategy for councillors who will not be re-elected;
- Councillor Orientation and empowerment programme;
- Comprehensive training programme for new councillors;
- Communication Strategy to roll out voter awareness campaigns; and
- Rapid response teams to monitor and resolve service delivery protests.

The Department is committed to monitoring and supporting municipalities to maintain functional municipal structures. An assessment was conducted to establish the functionality of oversight structures in all 61 municipalities. The oversight structures whose functionality was assessed included the Council, Executive Committees, Portfolio Committees and Municipal Public Accounts Committees (MPACs). In municipalities where oversight structures were identified as either not fully functional or dysfunctional, remedial action plans were developed and support is currently being provided.

COGTA supports municipalities with the assessment of senior management appointment vacancies and in the recruitment and selection process to appoint suitably qualified, skilled and experienced Municipal Managers (MMs), Chief Financial Officers (CFOs), and other senior managers. The support includes drafting adverts and supporting the short-listing and interview process (as observers). In this process, a monitoring mechanism and Standard Operating Procedure Manual (SOP manual) have been developed, and the implementation of SOP manual is underway and is being monitored.

Currently, all audit Committees were found to be established and functional. Three fraud risk registers were developed for Umzumbe, Vulamehlo and Umsinga. Audit outcomes results for 2014/15 were released in December 2015 with 18 municipalities receiving a Clean Audit, 35 municipalities an Unqualified, 7 municipalities with Qualifications and 1 municipality with a Disclaimer opinion. The Department will develop an audit response plan to support all municipalities to achieve a clean audit. KZN COGTA will continue to support municipalities to have good financial management and accountability. Municipal Debt was analysed and stratified into bands to assist in determining the financial contribution of each municipality on a sliding scale.

The Department placed about 456 Community Development Workers (CDWs) across 51 Municipalities. They play a critical role to support the functionality of war rooms by ensuring that the community as a key component of the institution of local government is effectively engaged. The CDWs also support the implementation of Back to Basics Programme aiming at strengthening Public Participation and enhance governance, accountability and service delivery.

In terms of coordinated capacity building, the strategy has been developed and consulted upon with stakeholders. Inputs received from stakeholders have been incorporated into the strategy. A strategy will be presented to the MEC for KZN COGTA for approval.

The Department formulated a Provincial IDP Management and Support Plan with the intent to optimize seamless governance in the planning, implementation and reporting of the provincial, national and local government priorities. Furthermore, the Department assisted municipalities in building their municipal planning capacity through the concept of District Shared Services (DSS [formerly DPSS]); which enabled the municipalities to be in a better position to respond to the changing policy environment in respect of the new legislations, namely; the Spatial Planning and Land Use Management Act (SPLUMA).

The Department supported and monitored the performance of municipalities. However, political instability and weaknesses in governance are two of the primary causes of poor service delivery at municipalities. Municipalities with weaknesses in governance and corporate management functions such as financial management, HRM and SCM also tend to experience difficulties in service delivery and increasing corrupt activities. Processes and systems for citizen engagement are generally weak in municipalities categorized as dysfunctional and at- risk. Some of the Back to Basics actions plans does not address some of the key underlying causes of problems in municipalities.

c) Development and Planning

The Department ensured that all municipalities in the province were supported to produce draft Spatial Development Frameworks (SDF). Monitoring tool for implementation of Densification Framework was prepared and adopted at Spatial Planning. In working towards ensuring that 50% of the provincial geographical area with Land Use Management Schemes and systems, a concept document with definition of land use management schemes and systems support was adopted at Spatial Planning. The identified municipalities are Vulamehlo, Richmond, Umshwathi, Umtshezi, Msinga, Nongoma, Umhlabuyalingana, Hlabisa, Mfolozi, Mthonjaneni, Kokstad, UbuHlebezwe, and Ethekwini.

The Department will continue to support municipalities with the implementation of SPLUMA. Currently, All 51 municipalities were capacitated as per the prescribed structures required in terms of SPLUMA. Programme of support to be provided to the previously established fresh produce market is in place. This includes Uthungulu Fresh Produce Markets, Newcastle Ingogo Fresh Produce Market, Msunduzi Fresh Produce Market and Okhahlamba Fresh Produce Market. The annual review of the Community Work Programme was conducted and an action plan was developed. The Department will continue to create work opportunities through the CWP and EPWP in municipalities.

In supporting municipalities in increasing percentage of households with a source of electrical supply, a working session was convened in June 2015 with 9 Municipalities to present and interrogate the proposed multi-year electrification reticulation project methodology against current practice. The working session was attended by Emadlangeni Local Municipality, uBuhlebezwe Local Municipality, uMzimkhulu Local Municipality, Jozini Local Municipality, Mandeni Local Municipality, uMtshezi Local Municipality, Nquthu Local Municipality, uMzumbe Local Municipality and Mkhamabathini Local Municipality. From the 9 municipalities, uMzumbe Local Municipality requested assistance on their electrification projects from COGTA.

Municipal sector plans for 10 districts plus 1 metro were assessed for Disaster Management (DM) alignment with municipal IDPs during the COGTA Municipal Planning Unit assessment sessions with an intention to facilitate and assist municipalities to factor disaster management in the municipal IDP together with budget. 61 municipalities were supported with the development of their Disaster Management Sector Plans. Severe weather early warning messages are disseminated promptly to all stakeholders as received from South African Weather Service. Spread sheet to log all anticipated climate change events warnings has been developed and circulated to all Provincial Disaster Management Centre (PDMC) officials' municipalities. Also, Terms of Reference for the establishment of Municipal climate change Technical Task Team were developed and workshopped to municipal practitioners. Municipalities within 10 districts plus metro were supported with the development and the review of their disaster management plans. The PDMC continues to coordinate and support municipalities and stakeholders to effectively respond to incidents, recover and rehabilitate the affected areas in an integrated manner.

Local Government environment remains characterized by a great demand for accelerated service delivery. It is beyond argument that communities require sustained service provision as top priority. It is rare that protest action, which is becoming increasingly prevalent, does not relate to service delivery. Community frustrations most often relate to water, electricity and housing. These frustrations emanate from two sources viz. those communities who do not yet have services and those who do have services but these have deteriorated into a state of dysfunctionality or at least, poor reliability.

Accelerated, resource intensive responses (skilled, experienced human resources as well as funding) remain necessary in pursuit of universal access. The deterioration of existing infrastructure requires increasing focus, from all spheres of government, and subsidization of infrastructure maintenance costs. Backlogs will not be eradicated if existing infrastructure is permitted to degenerate, creating "new" backlogs. Specific challenges relate to insufficient municipal capacity and skills levels which preclude adequate quality control over services rendered by contracted resources, ageing infrastructure, an inadequate pool of school leavers with good capabilities in mathematics and physical science—the potential trainees, too regular re-prioritisation of projects, often as a result of ulterior motives. The significant imbalance between backlog eradication demands and funding availability, slow Supply Chain Management (SCM) processes and appointment of less expensive service providers with inadequate capacity, poor coordination between housing

developments and necessary infrastructure, and inadequate focus of National funding priorities on eradication of backlogs and on adequate provision for infrastructure maintenance.

d) Traditional Institutional Management

Most traditional communities continue to be plagued by poverty and underdevelopment. The Department is poised to play a key strategic role not only in assisting the institution of traditional leadership to transform itself; but also in coordinating the traditional affairs activities, promoting good governance and enhancing service delivery in the Traditional Communities.

Sometimes there are delays in government interventions and development programmes due to ubuKhosi family disputes and faction fights in traditional communities. To ensure good governance in the Institution of Traditional Leadership, the Department will continue to provide effective governance and conflict management support to amaKhosi and the Traditional Councils. In partnership with the Office of His Majesty the King, amaKhosi were installed and recognised in order to continue with the restoration of the dignity of the Institution of Traditional Leadership.

The Department also successfully supported the legislature in piloting the Bill on Traditional Leadership and Governance towards passing a new Act regulating traditional leadership matters in the province; in line with the national framework. To ensure peace and stability in traditional communities and to provide conducive environment for service delivery and development, the Department will continue to make professional interventions in cases of conflict in traditional communities, installation and recognition of amaKhosi.

The Department in partnership with the University of KwaZulu-Natal continues to run a leadership programme to enhance the capacity of amaKhosi through Leadership Programme. AmaKhosi are then expected to use this knowledge to benefit their communities and the Traditional Councils. In addition, the Department ensures that sufficient resources (human, financial and infrastructural) are provided to transform the landscape in the functional domain of Traditional Affairs. Furthermore, the Department rolled out a capacity building programme to ensure effective and efficient functioning of our Traditional Councils.

The participation of Traditional Leaders in the Municipal Councils in terms of Section 81 of the Municipal Structures Act 1998 (Act No.117 of 1998) remain one of the main areas of focus for the Department.

Organisational Performance Environment

The Department is structured around four programmes.

Programme 1 is Administration and is the support service for the other three Programmes by ensuring that they are capacitated to perform their functions.

Programme 2 is Local Governance responsible for supporting Local Government structures in the municipalities on governance, administration, financial management, legislative mandates of the municipalities, public participation, capacity building and monitoring the performance of the municipalities.

Programme 3 is Development and Planning responsible to provide planning and development support to the municipalities in KwaZulu-Natal through implementing programmes to accelerate service delivery in the communities. This include providing support related to disaster management, infrastructure for basic services, spatial planning and enhancing Local Economic Development.

Programme 4 supports the Institutions of Traditional leadership on governance, conflict management, partnerships and participation on Municipal Councils in terms of Section 81 of the Municipal Structures Act 1998 (Act No.117 of 1998).

As of 31 January 2016 COGTA had a total of 1879 permanent posts in its employ. Males constitute 44.67% (888) while females constitute 48.89% (972) of the workforce. At the senior management level males constitutes 51.72% (16) and females is 48.33% (29). The recruitment and selection processes of the Department will be categorically focused towards achieving the employment levels in accordance with the DPSA Transformation targets.

Going forward, the Department will focus on the following areas of employment policy or practice barriers, to drive the achievement of our employment equity targets as stipulated in the Employment Equity Plan;

recruitment procedures, appointments, training and development, promotions, succession and experience planning, and retention of designated personnel.

Table 1: KZN COGTA WORKFORCE PROFILE AS AT 31 January 2016

that it needs to reconfigure its working arrangement to enhance the responsibility of co-ordination within and outside the Department. This environmental change will have very significant impact in the next five years. With the new reconfigured arrangement, the Department anticipate becoming more vigorously responsive to the needs of its clients. In addition, filling of critical posts remains critical for COGTA. Continuous capacitating of employees as per Personal Development Plan will work towards improving the service delivery at COGTA.

DESCRIPTION OF THE APP PROCESS

The Department followed a process whereby indicators and targets were developed to measure the most critical aspects of performance in each of the sub-programmes business processes. This process assisted the Department to develop indicators that are more outcome orientated rather than operationally focussed. Operational issues and project specific indicators will be catered for in the operational business plans.

The targets are aimed at achieving results/impact at the client level. The targets now reflect the level of intensity provided by the Department to its clients that is light, medium or high. The aforementioned evaluation indicated that "light" support does not contribute significantly to achieving impacts or outcomes. Therefore, the targets reflected are the realistic number of municipalities/ traditional institutions that the Department, given its capacity, can provide with "medium" (changing practices) or/and "high" (changing attitudes) type of support.

STRATEGIC OBJECTIVES

NUMBER	DEPARTMENT 'S GOALS	DEPARTMENT 'S STRATEGIC OBJECTIVES
1	Improved Cooperative Governance	1.1. Improved functionality of Inter-Governmental Relations
2	Strengthened Governance	2.1. Improved capacity of political and administrative governance (Local Government and Traditional Institution) 2.2. Strengthened accountability of governance institutions (Local Government and Traditional Institution) 2.3. Improved decision making through citizen participation
3	Increased Economic Opportunities	3.1. Strengthened sectoral development 3.2. Improved government led job creation programmes
4	Strengthened Delivery of Basic Services	4.1. Improved co-ordination of service delivery
5	Well Integrated Spatial Planning System	5.1. Improved spatial hierarchy of services
6	Adaptation to Climate Change	6.1. Increased adaptation to climate change impacts. 6.2. Improved disaster management

Alignment of Provincial Strategic Objectives and Sector Priorities to Government Outcomes

The COGTA Strategic Goals and Objectives have been clearly aligned with the National Development Plan, Government Outcomes and Provincial Growth and Development Plan as illustrated by the following table.

National Development Plan	Government Outcomes	PDGP Goals and Strategic Objectives	COGTA goals	COGTA Strategic Objectives
Chapter 3: Economy and employment	Outcome 4: Decent employment through inclusive growth	Goal 1: Job creation Strategic objective 1.2: Enhance sectoral development through trade and investment	Goal 3: Increased economic opportunities	3.1. Strengthened sectoral development 3.2. Improved government led job creation programmes
		Strategic objective 1.3: Expansion of government-led job creation programmes		
		Goal 3: Human and Community Development		
		Strategic objective 3.3: Enhance sustainable household food security in KZN.		
Chapter 5: Environmental Sustainability and resilience.	Outcome 10: Environmental assets and natural resources that are well protected continually enhanced.	Goal 5: Environmental Sustainability. Strategic Objective 5.4: Adaptation to Climate change	Goal 6: Adaptation to Climate Change	6.1. Increased adaptation to Climate Change impacts. 6.2. Improved Disaster Management.
Chapter 6: An Integrated and Inclusive rural economy. Chapter 4: Economic Infrastructure.	Outcome 9: A Responsive, accountable, effective and efficient local government system	Goal 4: Strategic Infrastructure	Goal 4: Strengthened delivery of Basic services	4.1. Improved co-ordination of service delivery
		Strategic Objective 4.5: Improve water resource management and supply Strategic Objective 4.6: Improve energy production and supply		

National Development Plan	Government Outcomes	PDGP Goals and Strategic Objectives	COGTA goals	COGTA Strategic Objectives
Chapter 8: Transforming Human Settlements.	Outcome 8: Sustainable human settlement and improved quality of household life	Goal 3: Human and Community Development Strategic objective 3.4: Sustainable human settlements Goal 7: Spatial Equity Strategic Objective 7.1: Actively promote spatial concentration and co-ordination of development interventions. Strategic Objective 7.2: Facilitate integrated land management and spatial planning	Goal 5: Well Integrated Spatial Planning System	5.1. Improved spatial hierarchy of services
Chapter 13: Building a capable and developmental state Chapter 14: Fighting corruption.	Outcome 9: A responsive, accountable, effective and efficient local government system.	GOAL 6: Governance and Policy Strategic objectives 6.1: Strengthen policy, strategy co-ordination and IGR.	Goal 1: Improved Cooperative Governance	1.1. PROGRAMME ONE: ADMINISTRATION

PART B: PROGRAMME AND SUB-PROGRAMME PLANS

PROGRAMME ONE: ADMINISTRATION

PROGRAMME PURPOSE

This programme is dedicated to all supporting sub-programmes within the Department to be able to render quality services to the municipalities under the umbrella of Corporate Services. This programme covers Office of the MEC, Office of the Head of Department (OHOD), Human Resource Management, Information Technology, Auxiliary Services, Financial Management, Internal Control, Policy and Research, Legal Service, Corporate Communications as well as Strategic Planning, Monitoring and Evaluation.

Agreements aligned to the implementation of strategic Plan.

The Department also achieved the set 100% on compliance of building with Occupational Health and Safety Act (OHSA), having functional working environment aligned to the organisational structure and efficiently management of fleet. In addition, the Department achieved clean audit on its financial and programme performance for 2014/15 Financial Year, submitted 26 statutory reports, kept programmes expenditure with 2% variance, updated asset registers for 257 Traditional Administrative Centres and supported 267 Traditional Councils with financial management practice notes. The Traditional Councils were further supported with the use of the Pastel Evolution software for recording of revenue transactions as well as and computer and financial management related training as part of Capacity Building programme. An Anti-fraud and corruption strategy was implemented through conducting 9 workshops, investigated 100% of fraud reported cases and issues on Auditor-General (AG) Management Action Plan.

SUB-PROGRAMME: CORPORATE SERVICES

Progress Analysis

The overall performance of the Department depends on Corporate Service's ability to effectively render perform its assigned functions. Some of these functions include supporting the implementation of OSS; with reports from all districts plus metro. The Department is on track in achieving 100% on recruiting staff with scarce skills, capacitating staff in accordance to the Departmental Training Plan and having Performance

Delivery Improvement Plan, conducted the set 4 evaluation studies, reviewed 3 policies, conducted 2 research projects and implemented a communication strategy. The Department drafted and edited 72 speeches, 13 briefing documents, 89 press statements and a book for the 2015 Women in Leadership Dialogue event.

Analysis of constraints and measures planned to overcome them
The Department experienced the following challenges: migration delays on Information Technology when dealing with SITA, procurement in line with the procurement plan and Business Units and compliance with legislation. However, the Service Management System business case was developed; Business Units were alerted to meet the timeframes stipulated in the plan and developed action plan to enforce compliance with legislation. The Department will closely monitor its budget and align its expenditure to outcomes designed to improve financial management mechanisms, achieve service delivery targets and achievement of an unqualified audit opinion.

Table 11.14 : Summary of payments and estimates by sub-programme: Administration

Table 11.15 : Summary of payments and estimates by economic classification: Administration

PROGRAMME TWO: **LOCAL GOVERNANCE**

PROGRAMME TWO - LOCAL GOVERNANCE

PROGRAMME PURPOSE

The Department was able to keep its commitment to providing effective support to local government institutions for strengthened governance, promote sound financial management, enhance public participation and improve capacity of municipalities to accelerate service delivery. The purpose of the programme is to co-ordinate, support, promote and enhance governance, administration and public participation in local government. The programme consists of five sub-programmes which are detailed below, namely Municipal Administration, Municipal Finance, Public Participation, Capacity Building and Municipal Performance Monitoring, Reporting and Evaluation.

A generic municipal Organisation and Design framework was researched, developed and implemented. Municipalities were also supported to implement municipal policies, plans and frameworks to enhance municipal administration and governance, including support with the filling of critical senior management posts.

A framework was developed to implement formal interventions, support was provided to municipalities to improve councillor oversight and 26 municipalities were supported on Back to Basics.

Skilled professionals were deployed to support and build capacity within district families with determining, reviewing and implementing appropriate municipal governance and administration processes, systems, plans, frameworks and procedures.

SUB-PROGRAMME: 2.1. MUNICIPAL GOVERNANCE AND ADMINISTRATION

Progress Analysis:

The Department supported the Municipal Demarcation Board with the redetermination of municipal boundaries process. A Roadmap for Municipal Demarcation, including all legislative prescripts was developed and implemented at affected municipalities.

implemented. KZN continues to experience fewer service delivery protests compared to other provinces. This is due largely to effective engagement with relevant stakeholders and support given to municipal rapid response teams.

Analysis of constraints and measures planned to overcome them

To enhance municipal administration and governance, a package of support programmes to municipalities will be developed and co-ordinated. In addition, a draft Framework of the Local Government Bill will be prepared and municipalities will be supported in revising draft standard bylaws. IGR and inter-municipal co-operation will continue to be supported and facilitated.

The Department will implement its Roadmap and will also continue to support the Municipal Demarcation Board and the IEC with the ward delimitation process.

To promote and facilitate effective and efficient IGR between the province and local government, various MuniMic forums (political and technical) were held including a successful Women in Leadership Dialogue that was hosted by the MEC. A Departmental Rapid Response Team has been established and an early alert system is being

SUB-PROGRAMME: 2.2. MUNICIPAL FINANCE

Progress Analysis: Sound financial management in all 61 Municipalities is crucial for the functionality of local government institutions. The Auditor General's assessments over the last five years have reflected that financial management and compliance issues in our municipalities have improved significantly with a substantial reduction in the number of audit queries raised. There is an overall improvement in the province of 14 audit opinions year on year and the highest recorded number of Clean Audits with municipalities receiving 18 Clean audits, 35 Unqualified, 7 Qualifications and 1 Disclaimer opinion and the seven municipal entities receiving four (4) Clean, two (2) Unqualified and one (1) Qualified opinions resulting in a total of twenty two (22) Clean Audits; thirty seven (37) Unqualified Audits; nine (9) Qualifications and one (1) Disclaimer opinion. Audit Outcomes were assessed and a cohesive Departmental Strategy to address these was developed promoting a multi-disciplinary response to addressing municipal audit outcomes to sustain and improve results in the Province. The Department has through effective financial monitoring and assessment under the Back to Basics Programme enhanced financial management and reporting in municipalities against the Sound Financial Management Pillar. Departmental support was provided through various fora including the District Finance Forums which also served as the Finance Technical Committees in support of the Re-demarcation Change Management Committees and process with targeted support to municipalities affected by

re-demarcation on Information and Communication Technology, Budget and Annual Financial processes. All municipalities received light to medium support on key financial management processes including annual financial statement, mid-year budget and annual reporting processes. Guidance, advice and capacity building to Mayors and municipalities on the new MSCOA framework for has also commenced in partnership with the Provincial and National Treasury.

A partnership by KZN COGTA with DCOG, SACPVP and LGSETA through the National Municipal Property Rates Act (MPRA) - Mass Appraisal Strategy Committee yielded success in producing a final draft of MPRA Standards for Valuation which were drafted by KZN COGTA and submitted to the SACPVP for adoption to guide the valuation profession in MPRA implementation. The partnership also yielded positive results in the area of MPRA-Mass Appraisal-Valuation Education and Training programmes, and the Municipal Assessors Program was approved by the Department of Higher Education and Training with the addition of an alternative occupation title Municipal Property Assessor via the LGSETA providing for the development of a formal qualification to capacitate and professionalise municipal officials. The Department has further developed its own monitoring framework based on the amendment to the MPRA during the year. Municipalities were supported in preparation for the next General Valuation to be implemented on the 1st of July 2017. Municipalities affected by the re-demarcation

were specifically supported to align valuation cycles and the Department processed applications for extension of valuation roll validity to promote alignment of valuation rolls and the Department published specific provisions relating thereto in the section 14(5) notice under the Municipal Structures Act (MSA). Statutory compliance in terms of the Section 131 of the MFMA and Section 81 of the MPRA reporting was achieved. Municipalities continue to receive support in implementation of the MPRA.

The Anti-corruption programme incorporated training on fraud awareness and fraud prevention with municipalities having been trained during the year and fraud risk registers having been developed.

Analysis of constraints and measures planned to overcome them

Lack of funding allocated to roll-out programmatic support to municipalities on the implementation of Simplified Revenue Plans, Debt and Indigent Management resulted in a limited level of support to municipalities. Internal capacity constraints further hamper the delivery of intense support and the realignment of the Department's Local Government Branch seeks to enable the provision of targeted intense support rather than general support. However, this is still subject to the appointment of staff. The Local Government elections present a risk of non-compliance and financial challenges in municipalities which are being managed by the Department through a Re-demarcation Financial Process Plan and mitigation of specific risks.

SUB-PROGRAMME: 2.3. PUBLIC PARTICIPATION

Progress Analysis:

Public participation is a key facet in bridging the gap between government and the community. Various supports were provided to all 51 municipalities such as the development of Municipal schedules of community report back meetings, functionality of ward committees, development of ward based plans and with the development of ward level database with community concerns and remedial actions. In addition, all 828 ward committees were supported on the implementation of ward operational plans and all Community Development Workers were trained on the new reporting template. The CDWs are expected to play a pivotal role in the OSS

structures as a supportive mechanism or platform to existing service delivery programmes. All war rooms were established and their functionality is static.

In addition, the Department prioritized the alignment of ward-based plans to the municipal IDPs with intent of enhancing the realization of provincial and national priorities at a ward-based level. The alignment of ward-based plans to IDPs is further aimed at promoting the role of ward committees and Operation Sukuma Sakhe in ensuring that a conducive platform for public participation through good governance in a manner that will optimize the realization of

integrated and sustained service delivery is created.

Analysis of constraints and measures planned to overcome them:

Public participation requires a collective effort and commitment from various stakeholders to be effective. However, there has been a lack of support from other stakeholders being unable to play their role. Efforts will be made to ensure that all stakeholders are engaged at all times and reminded on their various roles and responsibilities. The unit remains committed in achieving its target even with the existing high vacancy rate.

SUB-PROGRAMME: 2.4. CAPACITY BUILDING

Progress Analysis:

The process of supporting municipalities with capacity building is central to the Department's philosophy. The Department ensured that all municipalities are capacitated in accordance to the provincial capacity building strategy, implemented capacity building interventions and rolled out gender policy framework to all the municipalities. Phase 1 of the Accredited Councillor Training was rolled out to 10 District Municipalities. This training was based on 3 manuals which include Legislation, Structures and Functions; Good Governance and Codes of Conduct; and Councillor Oversight. Phase 2 of the Accredited Councillor Training was rolled out to Umkhanyakude and Umgungundlovu districts. This training was based on the following manuals which include Municipal Planning,

Performance Management Systems, Municipal Finance, Traditional Affairs and Special Projects. The Department received 359 nominations for the training. A total of 199 Councillors attended the training and 174 Councillors submitted their portfolios of evidence and were found competent. A graduation ceremony was held for female Councillors on 3 September 2015 to acknowledge their achievements on the programme. 287 Female Councillors were invited to the graduation. It was proposed that a further graduation will be held for the Male Councillors.

The newly elected Councillors at Mtubatuba Municipality attended the Councillor Orientation Programme in May 2015 and August 2015. The Orientation Workshop was further rolled out to

Councillors at Umkhanyakude District Municipality in November 2015 as part of the support provided to Section 139 Intervention Municipalities.

Analysis of constraints and measures to overcome them

There is a lack of funding to roll out the full qualification to Councillors namely, National Certificate: Local Government Councillor Practices, NQF Level 3. The Department is currently engaging with stakeholders to source funding for the various initiatives. There are huge differences between the number of nominated councillors and the actual number of councillors that attend the training.

SUB-PROGRAMME: 2.5. IDP CO-ORDINATION

Progress Analysis:

The Department believe that effective integrated planning is crucial for the well-functioning of Local Government Institutions and acceleration of service delivery. The Department formulated the Provincial Integrated Development Planning (IDP) Management and Support Plan with intent to optimize seamless governance in the planning, implementation and reporting of the provincial, national and local government priorities. The Provincial IDP Management and Support Plan serves as a tool through which the sub-programme co-ordinates its initiatives in partnership with the sector departments, State Owned Enterprises (SOEs) and municipalities. Furthermore, the Provincial IDP Management and Support Plan are envisaged to be approved by all the municipalities, sector departments and the SOEs at the Stakeholders Forum scheduled for February 2016.

In furtherance of the efforts to streamline and integrate provincial and national priorities using the IDPs as a conduit at a local government level. The Department has an on-going basis also assisted municipalities in building their municipal planning capacity through the concept of Development Planning Shared Services (DPSS). The DPSS equips municipalities with the requisite planning skills, which has enabled the municipalities to be in a better position to respond to the changing policy environment in respect of the new legislations, namely; the Spatial Planning and Land Use Management Act (SPLUMA).

In response to the resolutions of the Rural Development Summit that was convened on 23 to 24 July 2013, the IDP Co-ordination Unit has prioritised the development of the Traditional

Settlement Master Plans. The main rationale of the Traditional Settlement Master Plans is to improve land use management in traditional areas, thereby optimizing the use of land and mitigate against adverse development impact. This is going to be achieved through the working partnership that has been formulated by the IDP Co-ordination Unit with the Provincial House of Traditional Leaders.

Analysis of constraints and measures planned to overcome them

A major constraint during the drafting of the IDP Management and Support Plan is to find suitable dates and government venues to convene IDP meetings. Sector Departments and SOE's do not have sufficient capacity to support the Provincial IDP Management and Support Plan and to attend IDP related meetings in Municipalities as required by the adopted Framework and Process Plans.

SUB-PROGRAMME: 2.6. MUNICIPAL PERFORMANCE, MONITORING REPORTING AND EVALUATION QUARTERLY TARGETS

Progress Analysis: Functional municipal Organisational Performance Management Systems are crucial to give effect to the Municipal IDP's. The Department remain committed in supporting the municipalities to meet their basic delivery mandates through the Back to Basics programme. As a result, all 61 municipalities had Back to Basics Support Plans developed, implemented and monitored. The Back to Basics reporting template was utilized to improve reporting for the municipalities. The implementation of Back of Basics programme in the Province was aligned to Operation Sukuma Sakhe. In addition, Back to Basics campaigns were conducted to create awareness in the municipalities.

The Department also conducted 61 evaluations on the implementation of Back to Basics programme. All municipalities were supported to ensure that they are complying with single reporting system. All 61 municipalities were supported to institutionalise performance management system through assessing the alignment of IDP with Scorecard and Service Delivery Budget Implementation Plan (SDBIP).

Analysis of constraints and measures planned to overcome them

It was noticed that some of the support plans do not clearly identify desired results to be achieved, how they will be achieved, how they will be measured

and that the provided support had little or no impact to the municipalities. Assessment tool was used to monitor Back to Basics programme performance and found that some municipalities were regressing dysfunctional category. As a result, a Strategic Planning session was held in December 2016 to discuss the challenges on Back to Basics programme. This resulted on the assessment tool and support plans being amended for immediate implementation. There was a delay in the development of the electronic dashboard due to the change of project scope which further led to severe budget constraints.

Analysis of constraints and measures planned to overcome them

It was noticed that some of the support plans do not clearly identify desired results to be achieved, how they will be achieved, how they will be measured

PROGRAMME THREE: **DEVELOPMENT AND PLANNING**

PROGRAMME THREE: DEVELOPMENT AND PLANNING

PROGRAMME PURPOSE

The accelerated Sustainable development can be achieved through effective integrated planning, local economic development and implementation of schemes and provision of basic services. The purpose of this programme is to promote informed integrated planning and development in the province. This Programme consists of the following sub-programmes, namely Spatial Planning, Development Information Services, Land Use Management, Local Economic Development, Municipal Infrastructure, Disaster Management and IDP Coordination.

circumstances in municipalities and also because some municipalities developed their SDFs using appointed consultants whilst others used in-house capacity. Support offered therefore ranged from the development of Terms of Reference for the appointment of consultants, evaluation of bids submitted, management of consultants, and technical support on the development of Spatial Development Frameworks. All Spatial Development Frameworks for the 61 municipalities in KwaZulu-Natal (submitted as part of the adopted IDPs) were assessed. A report was then produced in respect of SDF compliance including alignment of the SDF with the Provincial Growth and Development Strategy (PGDS).

About 5 municipalities were monitored on the implementation of the Provincial Densification Framework and monitored the increase in the population density within designated development areas to facilitate the achievement of 4.12 households per hectare.

In addition, municipalities were supported towards the development, review and implementation of Scheme towards achievement of wall-to-wall scheme coverage across the province. A report on

the coverage of Schemes and Systems was prepared indicating progress in line with provincial and national legislative requirements for wall-to-wall Schemes, and the area within the province that is covered by Schemes and Systems. Further 6 municipalities were supported to develop a suite of plans and an analysis was made of the extent to which these plans have transformed municipalities and resulted in Spatial Equity.

Analysis of constraints and measures planned to overcome them

Varying levels of support were provided to municipalities identified in accordance with available resources. Constraints identified included internal staff vacancies and limited funding, as well as high municipal staff turn-over and leading to low capacity. Measures planned to overcome this include motivation to appoint additional internal planning capacity, assisting municipalities utilising internal skills, and applying departmental professional resources to municipal planning projects in collaboration with municipal planners. Structured support will be looked at to rationalise available resources.

SUB-PROGRAMME: 3.1. SPATIAL PLANNING

Progress Analysis:

Spatial mapping of the projects is critical in effective integrated planning and sustainable development. The Department ensured that all 61 municipalities in the province were supported were supported in respect of their Spatial Development Frameworks (SDFs) aligned with Provincial Spatial Guidelines. The level of support offered differed from municipality to municipality due to different

SUB-PROGRAMME: 3.1 DEVELOPMENT INFORMATION SERVICES

Progress Analysis:

The Department continued to provide support to Local Government Institutions for effective integrated planning through implementing GIS programmes. In support of the Municipal Property Rate Act (MPRA) implementation, the Municipal Property Rates System was introduced to ensure that 45 Local Municipalities get access to their property rates information, namely; cadastral, ownership and valuation related information. This obviates the need for financially constrained municipal entities to have to pay for access to this critical information. The MPRA Value-Add programme has been implemented in 12 local municipalities in the 2015/16 financial year.

District Municipality Web Pages were developed to ensure that municipalities get access to the current

infrastructure related information online. Cooperation with the relevant municipalities ensures that the currency and integrity of the information thereon is maintained. Web based mobile GIS apps were developed to support the various functions of KZN CoGTA and the Province. This technology is rapidly becoming the preferred method to capture spatially referenced field data. Technical GIS support was provided to the municipalities through the Development Planning Shared Services (DPSS) (Now District Shared Services) structures and the participation in the forum was extended to the local municipalities that are outside the DPSS fold. GIS mapping support and customized GIS applications continue to be provided in support of the Departmental initiatives (i.e. Disaster Management). Ongoing GIS support is being rendered in terms of the municipal outer

and inner boundary demarcation processes which are critical for the imminent Local Municipality elections.

Analysis of constraints and measures planned to overcome them

DIS is rationalizing the placement of the limited staff resources that it has at its disposal in the face of the moratorium on staff recruitment as well as the challenges that are arising from the OSD staff recruitment requirements. The GIS support provided by some of the DPSS municipalities to their respective Local Municipality's has been less than ideal due to a number of reasons including insufficient HR capacity. In order to ensure that the Local Municipality's do get some form of GIS support, the DPSS-GIS forum has been extended to include the Local Municipality's that are willing to participate.

SUB-PROGRAMME: 3.2. LAND USE MANAGEMENT

Progress Analysis:

The process of supporting municipalities on accelerating service delivery is very central to the Department. Municipalities were monitored against time norms and standards for development applications in terms of the planning legislation. The Assessment Template was reviewed based on previous assessment outcomes in order to achieve the Annual Performance Plan Targets. In addition, all 51 municipalities were supported in order to facilitate the roll-out of the Spatial Planning Land Use Management Act, 2013 (SPLUMA) in collaboration with the other stakeholders and 12 municipalities were supported with the land use management formalisation of towns project which entails the determination of outside figures, signing

of Memorandum of understanding, finalisation of land rights audit and land right enquiries. The Department further monitored the Provincial Human Development Index (HDI) against the 0.58 target set in the PGDP, attended 100% of survey and boundary requests received.

Analysis of constraints and measures planned to overcome them

In order to successfully monitor municipalities in terms of development application time norms, applications must be submitted to province to ensure this assessment can transpire. Although municipalities are contacted on a regular basis to provide this information, municipalities are not always forthcoming with the statistical information

on developments applications. Furthermore, to address this close interaction and regular visits to municipalities will be required to ensure this monitoring can take place and feedback regarding issues of concern can be discussed in order to achieve the annual target.

With the adoption of municipal by-laws in line with the implementation of SPLUMA, each municipality can now have their own time norms with regard to the processing of development applications which will make monitoring these norms challenging. To address this, municipalities will be guided and encouraged not to deviate from the time norms set in the previous legislation.

SUB-PROGRAMME: 3.3. LOCAL ECONOMIC DEVELOPMENT

Progress analysis

The Department implemented programmes and initiatives that became the catalysts for further development and created job opportunities. The Local Economic Development Unit is responsible for providing capacity support to municipalities in the implementation of local economic development programmes and initiatives for the creation of job opportunities and economic growth. The main objective of the programmes supported is community economic upliftment. The unit is made up of three sub directorates being Special Initiatives, Community Service Centres and EPWP support.

During the year under review, the Department successfully implemented the corridor development programme with a special focus on the N3 Corridor plan and its key nodes including identifying new nodes along the corridor. Under the small town rehabilitation programme continued support was provided to small town and rural nodes to the following areas: Kranskop, Mpofana, Weenen, Phongolo, Harding, Mtubatuba, Mkhuzi and Nlomo. The amaKhosi Rural Economic Development Programme implementation in UThukela and Msinga resulted in the creation of more than 70 opportunities in the agricultural sector in the projects owned and championed by amaKhosi focusing on fresh produce and maize. The amaKhosi programme was further expanded to three additional districts focusing on niche products such as fish farming, vineyards and fruit farming. Under the social cohesion initiatives aimed at uplifting rural economies, the Department successfully hosted the annual Mandela Marathon with over 13 000 participants and the annual festival of beads competition with over 5000 participants. The programmes are all implemented

in line with the KZN Poverty Eradication Master plan, given the call for radical economic transformation and the industrialization of rural areas.

In order to improve LED Capacity in municipalities as well as enhancing impact of projects, the Department was mandated to support municipalities in establishing District Economic Development Agencies. The Department supported the recruitment of board of directors for the new Agencies established under UThukela, Amajuba, UMgungundlovu, Ugu and Zululand District while operational support was provided to Lembe, Harry Gwala and UMkhanyakude Development agencies. Further support was provided in the development of standard policies and guidelines for good governance practices in all agencies and rolling out of the school nutrition programme through the Agency programme in partnership with the Department of Education. The Community Service Centres (CSC) programme aims to strengthen the capacity of the Traditional Institutions to be able to play a critical role in accelerating service delivery in partnership with the municipalities and sector departments. The CSC programme successfully completed construction of 4 grade 2 community service centres and one grade 1 CSC in Emdonno. Furthermore, 4 new CSCs are at construction stage in Bulwer, Muden, KwaMbonambi and Bulwer. Planning and design work for Nquthu and Maphumulo is underway for implementation in the 2016/17 Financial Year. 24 CSCs were successfully refurbished while 23 CSC had alternative energy installed. Under the Expanded Public Works (EPWP) programme, over 300 rural women and youth were registered for EPWP under the KZN COGTA incentive grant in the social sector while an additional 100 people

were employed to maintain community projects under amakhosi. Overall under the EPWP programme, over 1500 jobs were created in the KZN COGTA grant funded construction projects. The Community Works (CWP) programme received a major boost with an additional 5000 work opportunities allocated to 8 new sites in the province. The KZN province now boasts of a total of 38 municipalities benefitting from the CWP programme.

Analysis of constraints and measures planned to overcome them

Municipalities have limited LED capacity as well as project management skills to effectively monitor implementation of projects. Most municipalities have weak LED units and require support. Ongoing training is provided to municipalities leading to accreditation at NQF level 5. 30 LED officials from various municipalities benefitted from LED accredited training through the University of Johannesburg centre for LED, while all municipalities were trained in red tape reduction, project packaging and LED strategy development. The CWP drop out and lower than target participation rate remain a challenge, which can only be overcome through continued marketing and communication of the benefits of the programme. The Unit will closely monitor sites participation rate and mobilize communities to take part in the programme. Challenges still exist in relation to EPWP reporting and expenditure especially of the incentive grants. Training and workshops will continue to be rolled out to capacitate municipalities on the principles of EPWP in line with the Phase 3 implementation strategy.

SUB-PROGRAMME: 3.4. MUNICIPAL INFRASTRUCTURE

Progress Analysis

The service delivery environment remains characterised by an inadequate provision for operation and maintenance of infrastructure, general long term planning, and shortage of funding as well as skilled personnel. Initiatives and programmes are focused on infrastructure investment planning, co-ordination of infrastructure delivery with the various support institutions and service authorities, project planning and management of implementation, financial support (provision of grants as well as financial management), implementation of planned and preventative maintenance programmes, and "basic" service delivery under the Back to Basics programme.

The Department assessed 60 municipalities against service delivery benchmarks, supported 38 municipalities with service delivery programmes and 31 municipalities on the implementations of indigent policies. In addition, 13 municipalities were supported in yard water connections, basic level of sanitation services and 10 municipalities in increasing households with a source of electricity supply. Water and Energy fora were established as

permanent institutions, meeting regularly for co-ordination and support purposes. Universal Access Plans were completed for water services in all districts. Operation and Maintenance plans are being completed in 6 districts and this programme continues in 2016 / 2017. A programme for the installation of "package-type" water purification plants in priority areas was completed. Although there was a slight but disappointing decrease in expenditure (fund utilization) on MG in the 2014 / 2015 financial year, utilization of available capital funding remains good. There is a focus on increasing levels of service, particularly water, with monitoring and support instituted in respect of the quantity of water supplied per capita per day and in increasing the number of households with water supply in the yard. The Back to Basics programme has, inter alia, focused service authorities on fundamental service delivery matters – water loss and immediate attention to leaks, immediate attention to sewer spillages, roads maintenance and pothole repair, electricity theft, refuse removal and the management of solid waste disposal.

Analysis of constraints and measures planned to overcome them.

The challenges relating to service delivery have been adequately summarized above. The Business Units' programmes tabulated below accordingly focus on co-ordination, accelerating service delivery through improved programme and project management, increasing service levels, infrastructure maintenance and monitoring of service delivery. Efforts must continue to secure an Operation and Maintenance conditional grant for municipalities, funded from the National fiscals and allocated in terms of the Division of Revenue Act. The anomaly of funding Operation and Maintenance from municipal revenue (inclusive of Equitable Share) while also requiring municipalities to provide Free Basic Services needs to be removed by the introduction of a Conditional Grant for Operation and Maintenance. The Department has continued to lobby in this regard. Review of National fund allocation policies for infrastructure capital development must be precipitated. Needs-based allocations (as opposed to formula-based allocations) to municipalities with sufficient management capacity, needs to be pursued.

SUB-PROGRAMME: 3.5. DISASTER MANAGEMENT

Progress Analysis:

The Department made serious efforts to address the strategic goal of responding to Climate Change as articulated in the Provincial Growth and Development Plan (PGDP) with the objective of managing pressures of biodiversity. The Provincial Disaster Management Plan was reviewed through various consultations with stakeholders as part of ensuring that all relevant inputs are incorporated into the plan. The refurbishment of the Provincial Disaster Management Centre (PDMC) is underway; occupation is anticipated in the 2016/17 financial year.

PDMC continues to roll out the Capacity Building Programme to municipalities, to date at least 45 Fire Fighters were trained on Fire Fighting Level 1 & 2, and they have been deployed to various municipalities in their Fire & Rescue Services. 90 Municipal Disaster Management officials were trained on Disaster Risk Management as well as

Fire and Rescue Skills Development through funding sourced from LGSETA, with this training the municipal capacity shall be augmented.

The Department continues to support municipalities with the development of the Climate Change mitigation and adaptation plans. The PDMC has been responsible for supporting municipalities in lobbying financial support from the National Departments, for responding to the drought situation that the Province of KwaZulu-Natal is facing in order to normalise the lives of fellow citizens.

Analysis of constraints and measures planned to overcome them
There has been a delay with the finalisation of the Provincial Disaster Management Centre (PDMC) construction, the PDMC continues to engage the Implementing Agent to discuss the implications of

this delay and further obtain the final date when the project is anticipated to be concluded. The Provincial cost containment strategy has had an impact in the process of establishing the Provincial Fire and Rescue Service Unit within the PDMC as a National Imperative, as it indicates that no restructuring should be done by departments. The lack of proper institutional arrangement at a municipal level to deal with disaster management as well as fire and rescue services continues to be a challenge; hence the PDMC opted to secure funding for training which was undertaken throughout the 2015/16 financial year. The Province of KwaZulu-Natal has been declared as the Drought Disaster Area due to water shortages emanating from the drying up of water resources (dams, rivers etc.). The PDMC, together with the National Disaster Management Centre (NDMC) and other Sector Departments, is working tirelessly to deal with the scourge of this drought situation.

PROGRAMME FOUR:
TRADITIONAL
INSTITUTIONAL MANAGEMENT

PROGRAMME FOUR: TRADITIONAL INSTITUTIONAL MANAGEMENT

Programme Purpose:

Good governance is critical for the Institutions of Traditional Leadership to provide effective support to the communities. The purpose of this programme is to support and enhance the capacity of traditional councils. This programme consists of the following sub-programmes, namely; Traditional Institutional Administration and Traditional Resource Administration.

strengthened through providing effective support. In partnership with the Office of His Majesty the King, 6 amakhosi were installed and 16 recognised in order to continue with the restoration of the dignity of the Institution of Traditional Leadership. The Department also successfully supported the legislature in the piloting the Bill on Traditional Leadership and Governance towards passing a new Act regulating traditional leadership matters in the province in line with the national framework and continued to make professional interventions in cases of conflict to ensure peace and stability in the traditional communities. Once the Bill is passed, the Department will devise a programme to implement the new legislation, and will still include recognitions and installations of

SUB-PROGRAMME: 4.1. TRADITIONAL INSTITUTIONAL ADMINISTRATION

Progress Analysis:

The Department is striving towards ensuring that good governance in the Traditional Institutions is

amaKhosi and attending to cases of conflict and disputes.
The Department will continue to support cultural platforms to enable the traditional communities the opportunity to share their cultures, customs, celebrations, family tree and profiling of to ensure that their dignity is restored.

Analysis of constraints and measures planned to overcome them

Sometimes there are delays in government interventions and development programmes due to ubukhosi family disputes and faction fights in traditional communities. However, the Department remains committed to offer its professional support to resolve such disputes with the reasonable time.

SUB-PROGRAMME: 4.2. TRADITIONAL RESOURCE ADMINISTRATION

Progress Analysis:

The process of sustaining the support to the Traditional Leadership and Traditional Institutions remained the main focus of the Department as a strategy to strengthen good governance. The Department conducted skills audit for 11 houses, implemented Capacity Building Programmes for AmaKhosi for all Local Houses and the Provincial House aligned to Provincial Capacity Building Strategy. Furthermore, the Department in partnership with the University of KwaZulu-Natal continues to run a leadership programme and 20 AmaKhosi registered for a Leadership Programme for 2015. All AmaKhosi who registered for the leadership programme were provided with laptops and printers and are then expected to use this knowledge to benefit their communities and the Traditional Councils. The Department rolled out a capacity building programme on climate change and land use management as joint initiative between University of KwaZulu-Natal, British Council and IkuSasa Lethu.

ANNEXURE D: CHANGES TO THE 2015-2020 STRATEGIC PLAN

The Department revised its Strategic Plan and aligned it with the new policy mandate namely: Sustainable Development Goals and African Union Agenda 2063. The COGTA Strategic Goals and Objectives have been clearly aligned with the AU Agenda, and SDG goals as illustrated by the following table.

AFRICAN UNION AGENDA 2063		SUSTAINABLE DEVELOPMENT GOALS 2030		DEPARTMENT GOALS		DEPARTMENT'S STRATEGIC OBJECTIVES	
ASPIRATION	GOALS	PRIORITY AREAS	GOALS	SDG 1: End poverty in all its forms everywhere	Goal 3: Increased economic opportunities	3.1. Strengthened sectoral development	3.2. Improved government led job creation programmes
1. A Prosperous Africa based on Inclusive Growth and Sustainable Development	1.1 A High Standard of Living, Quality of Life and Well Being for all Citizens	1.1 (a) Incomes and Jobs 1.1 (b) Poverty and Hunger	SDG 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	SDG 11: Make cities and human settlements inclusive, safe, resilient and sustainable	Goal 1: Improved Co-operative Governance	1.1. Improved functionality of Inter-Governmental Relations	
		1.1 (d) Modern Affordable and Liveable Habitats and Quality Basic Services	SDG 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development	Goal 4: Strengthened delivery of Basic services	Goal 4: Improved co-ordination of service delivery		
				Goal 5: Well Integrated Spatial Planning System	Goal 5: Improved spatial hierarchy of services	5.1. Improved spatial hierarchy of services	
1.4 Transformed Economies	1.4 (a) Sustainable and Inclusive Economic Growth	SDG 1: End poverty in all its forms everywhere	SDG 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	Goal 3: Increased economic opportunities	3.1. Strengthened sectoral development	3.2. Improved government led job creation programmes	

AFRICAN UNION AGENDA 2063			SUSTAINABLE DEVELOPMENT GOALS 2030	DEPARTMENT GOALS	DEPARTMENT'S STRATEGIC OBJECTIVES
ASPIRATION	GOALS	PRIORITY AREAS	SDG 6: Ensure availability and sustainable management of water and sanitation for all	Goal 4: Strengthened delivery of Basic services	4.1. Improved co-ordination of service delivery
	1.7 Environmentally sustainable and climate resilient Economies and Communities	1.7 (a) Sustainable Consumption Patterns 1.7 (b) Biodiversity conservation and Sustainable Natural Resource Management 1.7. (c) Water Security 1.7 (d) Climate Resilience and Natural Disasters 1.7 (e) Renewable Energy	SDG 6: Ensure availability and sustainable management of water and sanitation for all SDG 7: Ensure access to affordable, reliable, sustainable and modern energy for all SDG 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development	Goal 4: Strengthened delivery of Basic services	4.1. Improved co-ordination of service delivery
	2.3 World Class Infrastructure Crisscrosses Africa	2.3 (a) Communications and Infrastructure Connectivity;	SDG 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development SDG 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	Goal 6: Adaptation to climate change	6.1. Increased adaptation to Climate Change impacts. 6.2. Improved Disaster Management
2. An Integrated Continent, Politically United, based on the Ideals of Pan Africanism and the Vision of Africa's Renaissance					
3. An Africa of Good Governance, Democracy, Respect for Human Rights, Justice and Rule of Law	3.1 Democratic values, practices, universal principles of Human Rights, Justice and Rule of Law entrenchment 3.2 Capable Institutions and Transformative Leadership in place	3.1 (a) Democracy and good Governance SDG 5: Achieve gender equality and empower all SDG 10: Reduce inequality within and among countries	SDG 4: Strengthened delivery of Basic services SDG 2: Strengthened Governance	2.1. Improved capacity of political and administrative governance 2.2. Strengthened accountability of institutions 2.3. Improved decision making through citizen participation	
	3.2 (a) Institutions and Leadership 3.2 (b) pp participatory Development and Local Governance	SDG 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels SDG 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development			

The following additional actions have been linked to interventions contained in the 2015-2020 Strategic Plan

PROGRAMME ONE		Sub-Programme	Action	Indicator
Amendment		Office of the MEC	Provide effective support services to the Department and the Ministry to promote good governance	Number of strategic documents tabled to the legislature as per statutory requirements Percentage of functional operational systems implemented in the Ministry
Addition of an action to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Build the capacity and capability of the Department to promote clean, effective and efficient governance		Office of the Head of Department	Implementation of MISS guidelines in order to comply with PAIA, Control of access to public premises and vehicles Act and OHS Act	Number of policies implemented in respect of Information and physical security
Addition of an action to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Build the capacity and capability of the Department to promote clean, effective and efficient governance		Office of the Head of Department	Ensure that the Department is Compliant with: <ul style="list-style-type: none"> • PFMA regulations • MPAT requirements in respect of the four key result areas being: <ul style="list-style-type: none"> • Strategic Management • Governance and Accountability • Financial Management • Human Resource Management 	Number of Departmental Clean Audit achieved
Addition of an action to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Promote a culture of integrated planning, transparency and accountability that enhances the efficient and effective performance of the Department		Human Resource Management	Capability of existing staff needs to be augmented to respond externally to municipalities and traditional institutions. <ul style="list-style-type: none"> • Undertake a skills audit including qualifications • Skills development Plan for departmental staff • Skills levy 	Number of MPAT Key Performance Areas fully compliant with legal/regulatory requirements
Addition of actions to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Build the capacity and capability of the Department to promote clean, effective and efficient governance		Human Resource Management	Capacity of existing staff needs to be augmented to respond externally to municipalities and traditional institutions. <ul style="list-style-type: none"> • Undertake a skills audit including qualifications • Skills development Plan for departmental staff • Skills levy 	Percentage of staff capacitated in accordance with the Departmental Training Plan
Addition of actions to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Build the capacity and capability of the Department to promote clean, effective and efficient governance		Human Resource Management	Provide support to municipalities in respect of Human Resource Management, Skills Levy, Employment Equity Plan and Skills Development Plan	Number of programmes implemented to support municipalities on Human Resource Management
Addition of actions to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Ensure sound financial Management		Financial Management	Provide support to municipalities in respect of Financial Administration	Number of programmes implemented to support municipalities on Financial Administration

PROGRAMME TWO

Amendment	Sub-Programme	Action	Indicator
Movement of interventions and actions from Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Stabilisation and strengthening of Traditional Leadership from Programme 4: Rural Development Facilitation to Programme 2: Municipal Governance and Administration	Municipal Governance and Administration	<ul style="list-style-type: none"> Support municipalities in improving participation of traditional leaders at municipal level. (Section 81) Establishment of IGR Structures on Traditional Affairs 	Number of municipalities with the participation of traditional leaders
Amendment of action from Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Stabilisation and strengthening of Traditional Leadership Programme 4: Rural Development Facilitation – Amend Establishment of IGR Structures on Traditional Affairs to Create a mechanism for Traditional Institutions to engage with IGR Structures	Municipal Governance and Administration	<ul style="list-style-type: none"> Support municipalities in improving participation of traditional leaders at municipal level. (Section 81) Create a mechanism for Traditional Institutions to engage with IGR Structures 	Number of municipalities with the participation of traditional leaders
Movement of the Sub Programme: IDP Co-ordination from Programme 3: Development and Planning to Programme 2: Local Governance in the Annual Performance Plan	IDP Co-ordination	No amendment to actions contained in the Strategic Plan	All Indicators moved
Additional Action under Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.2. Strengthened accountability of governance institutions, Intervention: Monitoring, Evaluation & Reporting	Municipal Performance, Monitoring, Reporting and Evaluation	Report on progress of performance made by municipalities	Number of Municipal Performance Reports compiled as per the requirements of Section 47 of the MSA

PROGRAMME THREE

Amendment	Sub-Programme	Action	Indicator
Amendment of action to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Revive and activate support of Traditional Institutions to promote socio-economic programmes	Land Use Management (Traditional Land Administration)	<ul style="list-style-type: none"> Add an action : Undertake cadastral survey work for the provision and maintenance of property descriptions the areas of jurisdiction of Traditional Institutions 	Percentage of received boundary requests received Number of izigodi mapped

PROGRAMME FOUR

Amendment	Sub-Programme	Action	Indicator
Amendment of action to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Stabilisation and strengthening of Traditional Leadership Action: Create platforms for sharing traditional cultures and indigenous knowledge at provincial and district levels	Traditional Resource Administration	<ul style="list-style-type: none">Support platforms for sharing traditional cultures and indigenous knowledge at provincial and district levels	Percentage of approved cultural platforms supported
Addition of actions to Strategic Goal 2: Strengthened Governance, Strategic Objective: 2.1. Improved capacity of political and administrative governance, Intervention: Stabilisation and strengthening of Traditional Leadership	Traditional Resource Administration	<ul style="list-style-type: none">Provide support to Houses of Traditional Leaders to ensure that they are established and functional	Number of Houses of Traditional Leaders supported with functionality in accordance with the act

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Municipal Finance	Number of Reports submitted on state of municipal finance in terms of section 131 of the MFMA	Report prepared by MEC in accordance with section 131 of the MFMA for submission to the Provincial Legislature	Legislative Compliance	Assessment reports and schedules of Municipal Finance Unit	Count the number of Reports produced	Nil	Output	Non-cumulative	Annual	No	1	General Manager: Municipal Finance
Municipal Finance	Number of Reports submitted on compliance with MPRA in terms of section 81 of the MPRA	Report prepared on Municipal compliance with MPRA	Legislative Compliance	Municipal Finance Compliance Schedules	Count the number of Reports produced	Nil	Output	Non-cumulative	Annual	No	1	General Manager: Municipal Finance
Municipal Finance	Number of municipalities with clean audits	Report on mid-year review of annual financial statements of municipalities per municipality for Back to Basics Municipalities	To ensure sound financial management and reporting	Municipal Financial Reports and System	Count the number of reports on: 1. Number of Mid-year budget and performance assessments undertaken and reported (26) 2. Municipalities quarterly assessments (61)	Nil	Output	Non-cumulative	Quarterly	No	54	Senior Manager: Municipal Finance
Municipal Finance	Number of municipalities with functional audit committees	Quarterly report on financial management per municipality (61) under Back to Basics	Aendas, Minutes and reports of Audit Committee Meetings	Count the number of municipalities with functional Audit Committees	Audit reports & quarterly reports on the implementation of Audit Response Plan based on audit response plans.	Nil	Output	Non-cumulative	Quarterly	No	54	Senior Manager: Municipal Finance
Municipal Finance	Number of municipalities monitored on Implementation of Audit Response Plan based on the 2014/15 audit outcomes monitored	Adequacy of Municipal Audit response plans assessed and feedback provided. Municipalities monitored and supported to implement audit response plans.	To improve municipal audit outcomes by addressing previous findings	Count the number of municipalities monitored on implementation of Audit Response Plan based on previous audit outcomes	Nil	Output	Non-cumulative	Quarterly	No	54	Senior Manager: Municipal Finance	

ANNUAL PERFORMANCE PLAN 2016/2017 - PAGE 191

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMITATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Number of municipalities with functional ward committees as per the municipal structures/systems act	To support the maintenance of functional ward committees and implementation of intervention plans for non-functional ward committees	Section 73(4) of the Municipal Structures Act requires Municipalities to make administrative arrangements to perform their function and exercise their powers effectively	Documentary (ward committee functionality assessment report/ spread sheets etc.)	Count the number of municipalities verified on the functionality of ward committee	Nil	Output	Non-cumulative	Quarterly	No	44	Senior Managers: Public Participation	
Number of ward committees supported on implementation of ward operational plans	Functionality of ward committees in relation to the implementation of ward operational plans in municipal wards that include basic ward level issues (potholes, non-functioning traffic lights, service interruptions, billing queries, etc. to be addressed)	To strengthen ward committee functionality and enhance community participation	Ward level operational plan developed and implemented in each Municipal wards	Nil	Output	Cumulative	Quarterly	No	870	Senior Manager: Public Participation		
Number of municipalities with ward based plans aligned to the IDP	Monitor implementation of ward operational plans by municipalities	Functionality of ward committee in relation to the development of ward based plans	Ward level operational plan developed and implemented in each Municipal wards	Nil	Output	Cumulative	Quarterly	No	44	Senior Managers: Public Participation		
Number of municipalities supported on the development of ward level database with community concerns and remedial actions produced	Relates to the establishment of processes to register and respond to community concerns	To ensure a structured two way communication between Municipalities and communities on service delivery concerns to act as an early warning system to address issues at an early stage	Database on community concerns	Quantitative	Nil	Output	Cumulative	Quarterly	No	44	Senior Managers: CDWs	
Capacity Building	Number of municipalities capacitated in accordance to the provincial capacity building strategy	Each stakeholder's capacity building initiatives must take guidance from the developed strategy which will give guidance on how individual municipality's challenges are to be addressed	Capacity Building Database	Quantitative	Nil	Output	Cumulative	Quarterly	No	54	Senior Manager: Capacity Building	

PROGRAMME (Sub-Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMITATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Capacity Building	Number of capacity building interventions conducted in municipalities	Implementing councillor and municipal official training programmes(soft skills and accredited training) to enable them to fulfil their governance obligations.	Institutionalise capacity building for municipalities so that officials meet the prescribed minimum competency requirements and councillors are able to fulfil their governance obligations. The intervention also identifies strategic partners to support COGTA's capacity building programme to support municipalities. Implement a learnership programme for unemployed youth.	Municipal reports on capacity building initiatives	Count the number of capacity building interventions conducted in municipalities	Nil	Output	Cumulative	Quarterly	No	2	Senior Manager: Capacity Building
Capacity Building	Number of municipalities supported to roll-out gender policy framework	Guide municipalities on gender policy to achieve the 50/50 representation of women in senior management position	Responding to a none racist, none sexist society	Municipal quarterly report	Partnership agreements	Nil	Output	Cumulative	Quarterly	No	54	Senior Manager: Capacity Building
Capacity Building	Number of strategic partnerships facilitated	Facilitating international and local partnerships for funding and training programmes to support the municipalities	Institutionalise capacity building for municipalities so that officials meet the prescribed minimum competency requirements and councillors are able to fulfil their governance obligations	Count the number of strategic partnerships facilitated	Nil	Output	Cumulative	Quarterly	Yes	2	Senior Manager: Capacity Building – Operations and Implementation	
Capacity Building	Number of learnership programmes Implemented in accordance to the provincial capacity building strategy	Facilitating the implementation of learnership programmes that will address the shortage of scarce skills in municipalities	To ensure that there are appropriately skilled artisans available to meet the demands of the current development priorities and equipping citizens with requisite skills	Capacity Building Database	Count the number of learnership programmes implemented	Nil	Output	Cumulative	Quarterly	Yes	1	Senior Manager: Capacity Building – Operations and Implementation
IDP Co-ordination	Number of Integrated Provincial Service Delivery Plans implemented	The plan guides and tracks public and private spending in accordance with the PGDPs and IDPs	Public and private spending investments spatially referenced for ease of monitoring and alignment	Documentary	Count the number of reports produced	Nil	Output	Non-cumulative	Quarterly	No	1	Senior Manager: IDP Coordination
IDP Co-ordination	Number of municipalities supported with development of legally compliant IDP	Support to municipalities in the development of the implementable IDPs through capacity building sessions, workshops, IDP forums and IDP assessments. A legally compliant IDP should be developed according to the	Municipalities developing community responsive IDPs within legislated framework	IDP assessment and analysis reports	Count the number of municipalities supported with development of legally compliant IDPs	Nil	Output	Non-cumulative	Quarterly	No	54	Senior Manager: IDP Coordination

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMITATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
IDP Co-ordination	requirements of applicable legislation	A forum facilitating joint planning between sector departments and municipalities in line with IDP priorities. Functionality- means meeting 80% of the performance indicators described in the Forums TOR	Joint planning across the 3 spheres of government.	Documentary	Count the number of Forums established & Functional.	Nil	Output	Non-cumulative	Quarterly	No	1	Senior Manager: IDP Coordination
IDP Co-ordination	Number of districts with shared services implemented	Support districts to maintain planning capacity in the form of District Development Planning Shared Services (DPSS) Implementation- Means 60% adherence to an agreed business plans	Municipalities will improve their development planning capacity and be more effective in implementing planning legislation	Documentary	Count the number of district families participating in DPSS	Nil	Output	Non-cumulative	quarterly	No	10	Senior Manager: IDP Coordination
Municipal Performance, Monitoring, Reporting and Evaluation	Number of municipalities complying with the single reporting mechanism	To enable the development of an integrated monitoring, evaluation and reporting system that will guide the provision of technical support to municipalities by various units within the Department	There is a need for consistent and integrated set of key performance data on municipalities that brings together various pieces of information to form an integrated and holistic picture of the municipality. This will assist in crafting coordinated responses, be it in terms of support or other interventions	Municipal quarterly report	Count the number of municipalities supported in terms of action plans	Nil	Output	Cumulative	Quarterly	No	54	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation
Municipal Performance, Monitoring, Reporting and Evaluation	Number of electronic dashboards developed and maintained	Ensure the development and implementation of an automated performance management system	Assist in implementing a standardised performance management process; Provide mechanisms to monitor and evaluate the achievements against set Targets through dashboards; provide mechanisms for early warning signals of non-achievement of Targets	Municipal quarterly report	Count the number of municipalities submitting reports in terms of the electronic system	Nil	Output	Cumulative	Quarterly	No	10	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation
Municipal Performance, Monitoring, Reporting and Evaluation	Number of municipal Support Plans implemented in line with the 10 point plan	Implement municipal support plans in 26 municipalities and monitor and sustain the performance of 35 municipalities.	To categorise, resource and track monthly progress on issues (activities) identified in support plans of the 26 priority municipalities. To make all stakeholders aware of the progress and issues needing	Documentation	Count the number of municipal Support Plans implemented in line with the key aspects	Nil	Output	Cumulative	Quarterly	No	54	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation

PROGRAMME (Sub-Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
			attention. Performance will be monitored against the number of issues categorised, resourced and receiving attention in the support plan. Validation = evidence based, not mere municipal sign off. It also refers to sustaining and adapted monitoring practices in the remaining well performing municipalities	identified in the 5 Pillars of the back to basics approach								
Municipal Performance, Monitoring, Reporting and Evaluation	Report on implementation of Back to Basics support plans by municipalities	Coordinate all stakeholders' commitments and support interventions within the Back to Basics support plan.	Improve coordination of support interventions directed to municipalities by national, provincial, sector departments and other key stakeholders	Reports from municipalities, sector departments and other stakeholders	Nil	Output	Cumulative	Quarterly	No	No	4	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation
Municipal Performance, Monitoring, Reporting and Evaluation	Number of validated district profiles prepared	To prepare a validated profile for every municipality within each district "family". This profile (and standardised template) must be against the profile of an "ideal municipality" as per the B2B guiding documents and to indicate an improvement or regression in state of affairs	To determine whether there is an improvement or regression in state of affairs within KZN	Documentary	Nil	Output	Cumulative	Quarterly	No	No	11	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation
Municipal Performance, Monitoring, Reporting and Evaluation	Percentage of COGTA issues resolved	Provide support which is responsive to the issue in order to finalise the matter as per the targeted dates	Resolve issues in order to ensure smooth service delivery	Documentary	Nil	Output	Cumulative	Quarterly	No	No	100%	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation
Municipal Performance, Monitoring, Reporting and Evaluation	Percentage of Sector issues facilitated	Facilitate the response to sector issues in order to finalise the matter as per the targeted dates	Resolve issues in order to ensure smooth service delivery	Documentary	Nil	Output	Cumulative	Quarterly	No	No	100%	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMITATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Municipal Performance, Monitoring, Reporting and Evaluation	Number of municipalities supported to institutionalise performance management system	Assists municipalities to develop and implement PMS core components to manage institutional performance. A municipality must by law establish a PMS that is in line with the priorities, objectives, indicators and targets contained in its IDP	Improve service delivery and accountability in terms of Chapter 6 of MSA and Municipal planning and performance regulations of 2001. By law municipalities are required to report on how well they are performing in delivering services. An effective PMS will provide the municipality with the information necessary to make intelligent decisions to improve performance.	Reports from municipalities audit reports, PMS assessment tool	Annual Mun Per Reports Annual Financial statements IDPs SDBIPs Stats SA census AG Findings Cogta BU reports	Count the number of municipalities with effective performance management systems	Nil	Output	Non - Cumulative	Quarterly	No	54
Municipal Performance, Monitoring, Reporting and Evaluation	Number of Municipal Performance Reports compiled as per the requirements of Section 47 of the MSA	The MEC must annually compile and submit to the Provincial Legislatures and the Minister a consolidated report on the performance of municipalities in the province. The report must: identify municipalities that under-performed during the year; propose remedial action to be taken; and Be published in the Provincial Gazette	To put in place provincial mechanisms to organise, consolidate and interpret primary data collected from municipalities or secondary data sources to develop a consolidated municipal report and to monitor municipal performance in order identify gaps, interventions and support on municipal performance.	Annual Municipalities Per Reports Annual Financial statements IDPs SDBIPs Stats SA census AG Findings Cogta BU reports	Consolidated Annual Municipal Performance Reports prepared	Yes	Output	Non - Cumulative	Annually	No	1	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation
Municipal Performance, Monitoring, Reporting and Evaluation	Number evaluations conducted	Conduct evaluations on municipalities and provide them with recommendations to improve their administrative performance	To provide feedback that will assist municipalities to improve their administrative performance	Evaluation Report(s)	Count the number evaluations conducted	No	Output	Non - Cumulative	Quarterly	Yes	1	Senior Manager: Municipal Performance, Monitoring, Reporting and Evaluation

PROGRAMME THREE: DEVELOPMENT AND PLANNING

PROGRAMME (Sub-Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATIONS	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Spatial Planning	Number of municipal SDFs aligned with Provincial Spatial Planning Guidelines	Support municipalities in the alignment of their SDFs with Provincial Spatial Planning Guidelines	This indicator is fundamental to most investment initiatives in the Province, and forms the basis for sound economic development in KZN	Documentary (reports/spreadsheet sheets. etc.)	Calculate the number of Municipal SDFs aligned with Provincial Spatial Planning Guidelines	Nil	outcome	Non-cumulative	Quarterly	No	54	Senior Manager: Spatial Planning
Spatial Planning	Number of municipalities monitored on the implementation of the densification framework	Monitor municipalities on the implementation of the densification framework	This indicator is fundamental in supporting human settlements outcomes as well as achieving the strategic objective of the PGDS of actively promoting spatial concentration	Documentary (reports/spreadsheet sheets. etc.)	Calculate the number of municipalities monitored on the implementation of the densification framework	Nil	outcome	Non-cumulative	Quarterly	No	5	Senior Manager: Spatial Planning
Spatial Planning	Increase in the population density within designated development areas	Support municipalities in increasing densities in designated development areas	This indicator is fundamental in supporting human settlements outcomes as well as achieving the strategic objective of the PGDS of actively promoting spatial concentration	Documentary (reports/spreadsheet sheets. etc.)	Calculate the number of households per ha in designated development areas	Nil	outcome	Cumulative	Quarterly	No	4,28 households/ha	Senior Manager: Spatial Planning
Spatial Planning	Percentage of total provincial geographical area with Land Use Management Schemes and systems	Support municipalities in developing Land Use Management Schemes and Systems	This indicator is fundamental to most investment initiatives in the Province, and forms the basis for sound economic development in KZN	Documentary (reports/spreadsheet sheets. etc.)	Calculate the percentage of provincial geographical area with Land Use Management Schemes and systems	Nil	Outcome	Cumulative	Quarterly	No	65%	Senior Manager: Spatial Planning
Spatial Planning	Number of municipalities supported to produce a suite of plans	Municipalities assisted in developing suite of plans required	This indicator relates to the development of a suite of plans as per the PGDP (eThekwin, Ugu, Uthungulu & Umngungundlovu)	Documentary (reports/spreadsheet sheets. etc.)	Calculate the number of municipalities supported to produce a suite of plans	Nil	Output	Non-cumulative	Quarterly	No	6	Senior Manager: Spatial Planning

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMITATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Spatial Planning	Number of Traditional Settlement Master Plans developed	Plans will be drafted to achieve orderly planning in rural areas	Plans aim to improve land use management thereby improving the quality of life in rural areas	Documentary	Count the number of plans developed	Nil	Output	Non-cumulative	Quarterly	No	5	Senior Manager: Spatial Planning
Development Information Services	Percentage of climate related incidents data mapped	Relates to incidents with and without early warning messages reported that have been mapped.	The reported incidents that have been mapped will enable future trend analyses to be carried out to enhance response to climate change.	Disaster Management incident register	Count the Number of incidents that have been mapped, divided it by the total number of climate related incidents data reported, multiply by 100	Yes	Output	Cumulative	Quarterly	No	100%	Senior Manager: DIS
Development Information Services	Share of events with early warning systems, where affected parties received prior warning.	Relates to incidents with early warning messages reported that have been mapped.	The reported incidents that have been mapped will enable future trend analyses to be carried out to enhance response to climate change.	Disaster Management incident register	Number of incidents that have been mapped divided by the total reported x 100	Yes	Output	Cumulative	Quarterly	No	100%	Senior Manager: DIS
Development Information Services	Percentage of adopted municipal schemes in the Province mapped	Relates to the adopted municipal schemes that have been mapped in the Province	To control the level of development within the area (gives effect to the related Cabinet Lekgotla resolution)	Spatial Planning municipal schemes compliance report	Count the Number of municipal schemes mapped, divide it by the total number of municipal schemes adopted	Nil	Output	Cumulative	Quarterly	No	100% of adopted municipal schemes mapped	Senior Manager: DIS
Development Information Services	Number of municipalities supported with MPRA implementation	Relates to the maintenance of the municipal valuation rolls	Provided municipalities with updated property registers for municipal valuation roll maintenance	SGO approved cadastral layers, Deeds ownership information, adopted municipal valuation rolls	Count the number of municipalities supported with updated property registers.	Yes	Output	Cumulative	Quarterly	No	38	Senior Manager: DIS

PROGRAMME (Sub-Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Land Use Management	Percentage of development applications that meet time norms for processing	Assessment of compliance of development applications with time norms.	To achieve legislative compliance	Documentary (reports/spreadsheets etc.)	Calculate applications received by the municipality against the time it took the municipality to take a decision on those applications	Yes	Output	Cumulative	Quarterly	No	73%	Senior Manager: Land Use Management
Land Use Management	Number of municipalities supported with the implementation of SPLUMA	Support municipalities on the effective implementation of planning legislation	This indicator is fundamental in supporting municipalities in achieving legal mandates.	Documentary (reports/spreadsheets etc.)	Calculate the number of applications that meet statutory compliance	Yes	Output	Cumulative	Quarterly	No	44	Senior Manager: Land Use Management
Land Use Management	Number of municipalities supported with the Formalisation of Towns	Support municipalities in unlocking development potential of identified towns	This indicator is fundamental to improve economic development of rural towns through formalisation.	Documentary (reports/spreadsheets etc.)	Calculate the number of applications that meet statutory compliance	Yes	Output	Cumulative	Quarterly	No	12	Senior Manager: Land Use Management
Land Use Management	Spatial Distribution of Human Development Index (HDI) at provincial scale	Analysis of Spatial Distribution of current Human Development Index (HDI) across the province	This indicator is aligned to Goal 3 of the PGDP: Human and Community Development	Documentary (reports/spreadsheets etc.)	Analyse percentage of Spatial Distribution of current Human Development Index (HDI) across the province	Nil	Outcome	Cumulative	Quarterly	No	0.6	Senior Manager: Land Use Management
Land Use Management (TLA)	Percentage of received survey requests attended to	Each TC is required to set aside 100 ha. for agricultural use	The intervention seeks to improve the productivity of communal land by promoting the availability of land for agricultural production	Monthly Reports, Business Plan milestones	Count the number of the survey requests attended to divided by received multiplied by 100.	Nil	Output	Cumulative	Monthly	No	100%	Senior Manager: Traditional Council Land Administration Support
Land Use Management (TLA)	Percentage of received boundary description requests attended to	Each Traditional Institution must have certainty regarding their area of jurisdiction	To facilitate rural development, there must be certainty regarding the areas of jurisdiction (boundaries) of all Traditional Institutions	Monthly Reports, Business Plan milestones	Count the number of the boundary requests attended to divided by received multiplied by 100.	Nil	Output	Cumulative	Monthly	No	100%	Senior Manager: Traditional Council Land Administration Support

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Land Use Management (TLA)	Number of izigodi mapped	Each Traditional Institution must have alignment between recognised izinduna and izigodi	To facilitate rural development and governance. There must be certainty regarding the areas covered by each of the izinduna.	Monthly Reports, Business Plan milestones	Count the number of izigodi mapped	Nil	Output	Cumulative	Monthly	Yes	228	Senior Manager: Traditional Council Land Administration Support
Local Economic Development-Special Initiatives	Number of District Agencies supported to effectively drive LED	Facilitate the establishment of new agencies and the realignment of existing local agencies to be at district level [LED project]	To establish special purpose vehicles to support with implementation of high impact LED initiatives	Documentary (reports/ spreadsheets etc.)	Count the number of districts supported	Nil	Output	Non-Cumulative	Quarterly	No	10	Senior Manager: LED – Special Initiatives
Local Economic Development-Special Initiatives	Number of districts/metro supported with informal economy initiatives	Provision of capacity support to municipalities in relation to the informal economy sector [LED project]	To ensure the informal economy sector regularisation and infrastructure support through training, provision of trading facilities and policy development	Documentary (reports/ spreadsheets etc.)	Count the number of municipalities supported	Nil	Output	Non-Cumulative	Quarterly	No	11	Senior Manager: LED – Special Initiatives
Local Economic Development-Special Initiatives	Number of nodal development plans/strategies developed to promote growth of new/small towns	Assist municipalities to develop nodal plans for new towns and to accommodate growth in small town nodes [Special Initiative]	The purpose is to attract investment in new towns, hence create more employment to enhance economy	Documentary (reports/ spreadsheets etc.)	Count the number of nodal development plans/strategies developed to promote growth of new/small towns	Nil	Output	Non-Cumulative	Quarterly	No	4	Senior Manager: LED – Special Initiatives
Local Economic Development-Special Initiatives	Number of municipalities supported to establish agri-hubs/fresh produce Markets aligned to institutional markets	Operationalization, Construction or acquisition of property utilized as agri-hubs of markets [LED project]	The intention is to support municipalities to establish Agri-hubs that will act as collection points for fresh produce which can be redistributed to institutional markets.	Documentary (reports/ spreadsheets etc.)	Count the number of municipalities supported	Nil	Output	Non-Cumulative	Quarterly	No	3	Senior Manager: LED – Special Initiatives
Local Economic Development-Special Initiatives	Number of Corridor Plans Developed	Support the development of specific corridor plans to inform catalytic projects for implementation [Special Initiative]	Ensure catalytic projects are aligned across municipal boundaries	Documentary (reports/ spreadsheets etc.)	Count the number of corridor plans developed	Nil	Output	Non-cumulative	Quarterly	No	1	Senior Manager: LED – Special Initiatives

PROGRAMME (Sub-Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY	
Local Economic- Development- Special Initiatives	Number of municipalities supported to implement Local Economic Development projects in line with updated municipal LED strategies	Guide municipalities to develop/ review Local Economic Development Strategies with high impact programmes aligned to the national LED framework, approved by the council. Funded projects in the municipal strategies implemented, monitored and key stakeholders coordinated. Prioritization of 27 district municipalities (country-wide). Sustainable LED Projects generate own revenue/income without dependency on grant funding in long term	To improve medium term economic development planning, aligned to national and provincial plans and promote job creation at local level	Municipal quarterly report on LED and provincial quarterly reports	Count the Number of municipalities supported to implement Local Economic Development projects in line with municipal LED strategies	Nil	Output	Cumulative	Quarterly	No	10 Districts	Senior Manager: LED – Special Initiatives	
Local Economic- Development- Special Initiatives	Number of Municipalities supported to Implement the Red Tape Intervention programme	[LED project]	Provision support to municipalities with regard to the implementation of red tape reduction programme to ensure investment attraction and retention at local level. Support to be provided through facilitation of municipal-business partnership for red tape reduction in targeted municipalities	Municipal and Provincial Quarterly reports	Count the number of Municipalities monitored to reduce cost of doing business through Red Tape Intervention	Nil	Output	Cumulative	Quarterly	No	11	Senior Manager: LED – Special Initiatives	
Local Economic- Development- Special Initiatives	Number of TCs supported with Development Initiatives	[LED project]	Professional support provided to undertake scoping analysis and develop comprehensive business support plans through the establishment of Project Steering Committees	This will ensure that vital development initiatives are undertaken in traditional communities that are aimed at promoting socio-economic development towards job creation at a local level	Documentary (business plans, scoping reports, attendance registers, spreadsheets etc.)	Count the number of traditional communities supported	Nil	output	Non- cumulative	Quarterly	No	6	Managers: Development Facilitation
Local Economic- Development- Special Initiatives	Number of dialogues held to support social cohesion and nation building	[LED project]	Support to PH & LH's to implement Social Cohesion conversations to create awareness and deliberate around social ills	The SC conversations will allow for consultation community members to create awareness and find solutions to social ills	Monthly reports and attendance registers	Nil	output	Non- cumulative	Quarterly	No	4	Managers: Rural Development Facilitation	

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMITATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Local Economic-Community Service Centres	Number of CSC Infrastructure programmes Implemented	The KPI relates to the physical construction and rehabilitation of CSCs	Ensuring that CSCs become catalysts to development leading to the possible emergence of sustainable small towns contributing to socio-economic upliftment in addition to service interventions within areas of high social need as identified within the PGDS	Documentary (reports/ spread sheets etc.)	Count number of CSCs at construction phase and rehabilitation at practical completion phase	Nil	Output	Non- Cumulative	Quarterly	No	1	Senior Manager: LED – Community Service Centres
Local Economic-Community Service Centres	Number of Grade 1 CSCs supported for Effective Functionality	The KPI relates to supporting Municipalities and/or Traditional Institutions in ensuring Grade 1 CSCs functionality as per the CSC Functionality Framework	Ensure that Grade 1 CSCs fulfil their potential in providing qualitative services through sound centre management, operations, adequate resources provision and tenant centre occupation	Documentary (reports/ spread sheets etc.)	Count number of Grade 1 CSCs supported (technically or financially)	Nil	Output	Non- Cumulative	Quarterly	No	26	Senior Manager: LED – Community Service Centres
Local Economic-Community Service Centres	Number of Grade 2 CSCs supported for Effective Functionality	The KPI relates to supporting Grade 2 CSCs in enhancing the centres in becoming functional and viable service delivery access points.	Ensuring that Grade 2 CSCs serve as viable and accessible service delivery points for the benefit of marginalised communities in terms of the Provincial Hierarchy of Nodes	Documentary (reports/ spread sheets etc.)	Count number of Grade 2 CSCs supported (technically or financially)	Nil	Output	Non- Cumulative	Quarterly	No	25	Senior Manager: LED – Community Service Centres
Local Economic-Development-Community Works Programme	Number of work opportunities created through the CWP in municipalities	To support municipalities on coordinating the creation (provision) of work opportunities in line with CWP implementation manual	To provide employment safety nets, alleviate poverty and community development	Documentary (reports/ spreadsheets etc.)	Count the Number of work opportunities created and maintained through CWP	Nil	Output	Non- Cumulative	Quarterly	No	34500	Senior Manager: LED – Expanded Public Works Programme
Local Economic-Development-Community Works Programme	Number of employment opportunities created through EPWP	This KPI relates to the number of jobs created/maintained through the implementation of COGTA funded programmes	Ensuring that COGTA programmes are labour intensive and create job opportunities.	Documentary (project reports/ implementation plans etc.)	Count the Number of employment opportunities created and verified	Nil	Output	Non- Cumulative	Quarterly	No	2000	Senior Manager: LED – Expanded Public Works Programme
Local Economic-Development-Expanded Public Works Programme	Number of functional coordinating structures for infrastructure development and service delivery	Joint initiative to deliver basic services	Continuously coordination of municipal services delivery	Sector Department reports, Municipal reports	Count the number of functional coordinating structures for infrastructure development and service delivery	Nil	Output	Cumulative	Quarterly	No	11	General Manager: Municipal Infrastructure

PROGRAMME (Sub-Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
Municipal Infrastructure	Number of municipalities assessed against service delivery bench marks	Measurement of municipal performance on provision of basic service	Monitor provision of basic services	Sector departments, municipalities and utilities	Count the number of municipalities assessed against service delivery bench marks	Nil	Output	Cumulative	Quarterly	No	53	General Manager: Municipal Infrastructure
Municipal Infrastructure	Number of municipalities supported with service delivery programmes – NT Indicator	Assist municipalities to plan, implement, operate and maintain infrastructure programmes and projects (MIG)	Functional infrastructure	Sector departments, municipalities and utilities	Count the number of municipalities implementing a long term service delivery plan	Nil	Output	Cumulative	Quarterly	No	31	General Manager: Municipal Infrastructure
Municipal Infrastructure	Number of municipalities supported to implement indigent policies	Provide guidance to municipalities in developing/reviewing indigent policies and updating indigent registers aligned to the national policy framework	Provision of free basic services to indigent households	Municipal quarterly reports	Count the number of municipalities supported to implement indigent policies	Nil	Output	Cumulative	Quarterly	No	30	General Manager: Municipal Infrastructure
Municipal Infrastructure	Number of reports on cubic metres per capita per year available	Monitoring mechanism for provision of adequate water resources	Adequate availability of water	WSAs, DWS, Water Boards	WSAs, DWS, Water Boards	Quantitative	Output	Non-cumulative	Bi-annually	No	2	General Manager: Municipal Infrastructure
Municipal Infrastructure	Number of reports on water service systems in balance (supply and demand balance)	Mechanism for monitoring that supply systems meet demand	Adequate availability of water	WSAs, DWS, Water Boards	WSAs, DWS, Water Boards	Quantitative	Output	Non-cumulative	Bi-annually	No	2	General Manager: Municipal Infrastructure
Municipal Infrastructure	Number of households with access to 75 litres of water per person per day	Monitoring mechanism for provision of adequate water supply and review norms and standards	Monitor extent to which increasing demands for water are met	WSAs, DWS, Water Boards	WSAs, DWS, Water Boards	Quantitative	Output	Non-cumulative	Annual	No	2	General Manager: Municipal Infrastructure
Municipal Infrastructure	Number of municipalities supported in increasing percentage of yard water connections	Monitoring mechanism (PMI) for improved level of services	Ongoing monitoring of community development	WSAs, DWS, Water Boards	WSAs, DWS, Water Boards	Quantitative	Output	Non-reporting	Cumulative	No	13 WSAs	General Manager: Municipal Infrastructure

PROGRAMME (Sub- Programme)	PERFORMANCE INDICATOR	DEFINITION	PURPOSE/IMPORTANCE	SOURCE/ COLLECTION OF DATA	METHOD OF CALCULATION	DATA LIMIT ATION S	TYPE OF KPI	CALCULATION TYPE	REPORTING CYCLE	NEW INDICATOR	DESIRED PERFORMANCE	INDICATOR RESPONSIBILITY
