JBCC® Constituents

The Joint Building Contracts Committee® NPC (JBCC®) is representative of building owners and developers, professional consultants and general and specialist contractors who contribute their knowledge and experiences to the compilation of the JBCC® documents. The JBCC® documents portray the consensus view of the constituent members and are published in the interests of standardisation and good practice with an equitable distribution of contractual risk. The constituents are:

Association of Construction Project Managers
Association of South African Quantity Surveyors
Consulting Engineers South Africa
Master Builders South Africa
South African Black Technical and Allied Careers Organisation
South African Institute of Architects
South African Property Owners Association
Specialist Engineering Contractors Committee

The Minor Works Agreement structure

The agreement clauses are divided into sections that correspond to the project execution sequence. The documents set out clear, balanced and enforceable procedures, rights and obligations which, when competently managed and administered, protect the employer, contractor and subcontractors alike. Specific employer and contractor requirements are recorded in a separate JBCC® MWA Contract Data form

This agreement is intended for use where:

- The works are not complex

The employer appoints:

- A principal agent to administer the agreement
- Other agents for specific aspects of the works
- Direct contractors for specialised work or installation not undertaken by the contractor

This agreement is suitable but not limited for use where:

- The contractor is a small to medium enterprise
- The employer carries the major liabilities related to the works
- The employer is responsible for the primary insurances related to the works

This agreement is *not* suitable where the works requires:

- The appointment of nominated or selected subcontractors
- Contract price adjustment (escalation) provisions

and is *not* considered suitable where:

- The works is of a complex nature
- The anticipated construction period is longer than nine months
- The necessary contract documentation is not complete and available at tender stage
- Sectional completions are required

Warning!

This JBCC® Minor Works Agreement Edition 5.1 has been coordinated with the JBCC® Certificates and other support documents. Forms from previous editions are not compatible with this JBCC® Minor Works Agreement Edition 5.1. Parties using the JBCC® suite of contract agreements are warned of the dangers inherent in modifying any part of it. Experience has shown that changes drafted by others, including members of the building professions, often have results different from those intended that may be prejudicial to either, or both, parties

Forms used with the JBCC® Principal Building Agreement and the JBCC® Nominated/Selected Subcontract Agreement are not compatible with the JBCC® Minor Works Agreement
