CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1991, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

Bid rigging is, therefore, an agreement between competitors not to compete.

**APPOINTMENT OF A PANEL OF SERVICE
PROVIDERS TO PROVIDE PROJECT
MANAGEMENT SERVICES FOR THE KZN COGTA
FUNDED PROJECTS IMPLEMENTATION.
(PROFESSIONAL AND PROJECT MANAGEMENT
SERVICES)**

In terms of the Copyright Act No. 98 of 1978, no part of this document may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying, recording or by any information storage and retrieval system, without permission in writing from KZN Province Department of Cooperative Governance and Traditional Affairs.

PROJECT MANAGEMENT /PROFESSIONAL: PROVISION OF PROFESSIONAL / PROJECT MANAGENT SERVICES TO KZN COGTA FUNDED INFRASTRUCTURE PROJECTS.

1. BACKGROUND TO THE PROGRAMME

- a) Infrastructure delivery for socio-economic needs remains a challenge in most of the rural communities even after 26 years of the new democratic order in South Africa. There are still huge backlogs in so far as the critical basic infrastructure including water, electricity, roads and others in the country. The KZN province also suffers a lot from the similar syndrome, despite government efforts through Municipal Infrastructure Grant (MIG) and other Programmes, many communities still do not have access to basic infrastructure and the government is determined to close the gap.
- b) The Department of Co-operative Governance and Traditional Affairs is initiating a hands on support programme to assist municipalities with financial and technical measures to fast track infrastructure related service delivery in order to close the identified gap. To this end, the Department shall require to engage suitable qualified and experienced service providers in the Built and Planning Environments to assist in the implementation of the programme.

2. APPROACH

- a) The establishment of a panel of suitable qualified and experienced service providers in the project management/engineering/planning related services, especially in the built environment, for the KZN COGTA funded massive public infrastructure programme linked to fast tracking of service delivery and creation of employment during implementation of projects.
- b) Once the pool of Service Providers has been appointed, they shall be requested to quote on specific projects to be undertaken as shall be identified and determined by the Programme Manager from COGTA. Service providers will be invited to quote on a rotational basis. This approach will be aligned to the SCM prescripts and Treasury Regulations. The Department of Co-operative Governance and Traditional Affairs shall engage the service providers in various district municipalities where a need would have been identified and scope of work clearly determined for specific projects implement.

3. NEED FOR SERVICE

- a) Over the past few years, the department has supported municipalities to implement infrastructure projects, but using their own procurement processes. A number of municipalities have been unable to conclude procurement processes on time and /or at all, resulting in the allocated funds being unspent.
- b) The fact remains however, that there are huge backlogs in infrastructure service delivery and something need to be done to close the gap identified. It has also become evident that there is limited capacity in municipalities to deliver huge infrastructure projects as per the needs identified during various assessments including the Municipal Turnaround Strategies (MTAS).
- c) By and large, with this programme COGTA aims to do something practical to support municipalities and institutions of Tradition Leadership with technical expertise to identify, plan and implement the infrastructure projects within COGTA.

4. OBJECTIVES

The main objective of this process is to appoint a pool of service providers that would render programme/project management service in supporting the staff at COGTA, Municipalities and other stakeholders involved in the planning, implementation and operation of the infrastructure projects funded by COGTA. The support envisaged will be in relation, but not limited to, investigations, feasibility studies, project planning, project design, implementation, project close out and commissioning, disbursement, accounting and financial management. This includes programme/project related matters such as engineering and environmental management, programme implementation support and capacity building strategies within COGTA and municipalities benefiting from the projects to be implemented.

The Department is also supporting Municipalities in the coordination and the implementation of the District Development Model service delivery approach of government.

Key Objectives of this programme of government include :-

1. The overarching objective is to ensure that service delivery is fast tracked and that municipalities are properly supported and adequately resourced.
2. Further the objectives are to:
 - Promote active collaboration of initiatives from all spheres of government;
 - Promote greater accountability;
 - Ensure that all three spheres of government operating in unison thus enabling coherent, seamless and sustainable service delivery and development with integrated impact on the quality of life and quality of living spaces at municipal level.
 - That the DDM is premised on institutionalising a programmatic approach to IGR.
 - Focus on the local government space as the appropriate scale and arena for intergovernmental planning and coordination.
 - Focus on the local government space as developmental spaces (IGR Impact Zones) that will be strategic alignment platforms for all three spheres of government.
 - To produce a Spatially Integrated Single Government Plan (as an Intergovernmental Compact) for each of these spaces that guides and directs all strategic investment spending and project delivery across government, and forms the basis for accountability.
 - This approach reinforces an outcomes-based IGR system where there is a systematic IGR programme and process associated with the formulation and implementation of a single government plan. This signifies a shift from highly negotiated Alignment of Plans to a regulated cooperative governance One Plan
 - Take development to the community as key beneficiary and actors of what government does, and where they have a stake

In light of the above, all implementation must be coordinated and centred around common district plans. This forms an integral part of how the department will execute its programmes in supporting its clients.
